

# **Applied Materials Announces Solid Fourth Quarter Results**

November 11, 2009

- Returns to profitability in Q4 led by semiconductor equipment business
- New operating structure to strengthen leadership in global markets and deliver an anticipated \$450 million in cost reductions
- Expects net sales to grow by more than 30 percent in fiscal 2010

SANTA CLARA, Calif.--(BUSINESS WIRE)--Nov. 11, 2009-- Applied Materials, Inc. today reported fiscal 2009 fourth quarter net sales of \$1.53 billion and GAAP net income of \$138 million or \$0.10 per share. For its fiscal year ended Oct. 25, 2009, the company reported net sales of \$5.01 billion and a GAAP net loss of \$305 million or \$0.23 per share.

The company also reported non-GAAP results, with fourth quarter net income of \$177 million or \$0.13 per share and fiscal year net income of \$37 million or \$0.03 per share.

"Applied delivered a solid fourth quarter led by increased net sales and profitability in our semiconductor equipment business, with improved demand and financial performance in all of our segments," said Mike Splinter, chairman and CEO. "For the year, we invested in growth across all of our businesses, introducing new products and expanding into new markets while reducing our cost structure."

Applied Materials was named the number one equipment supplier to the solar PV industry during 2009 and recently opened the world's largest non-governmental solar energy research facility in Xi'an, China. Applied's Energy and Environmental Solutions business has grown to over a billion dollars in annual net sales in less than three years and is expected to achieve breakeven or better results in fiscal 2010 on a non-GAAP basis.

"Since 2006, Applied has successfully extended our nanomanufacturing leadership from semiconductor and display to the solar industry, and during that time we have seen changes in customer and geographic concentration in all of these markets," Splinter added. "We are adapting our operating structure to align with these changes and enhance the value we provide to our customers and stockholders."

In fiscal 2010, Applied Materials expects to be taking the following actions to strengthen its leadership in its global markets and deliver higher operating efficiencies:

- Embedding its sales force into its business groups to increase visibility into customer and market opportunities.
- Consolidating its manufacturing and supply chain closer to more of its customers and suppliers.
- Implementing various cost reduction initiatives and a restructuring plan expected to achieve total annualized cost savings of approximately \$450 million when completed.

Under the restructuring plan, Applied Materials expects to reduce its global workforce by approximately 1,300 to 1,500 positions, or 10 to 12 percent, over a period of 18 months. The company anticipates the pre-tax cost of the plan to be between \$100 million and \$125 million, most of which is expected to be recognized in the first quarter of fiscal 2010.

The anticipated savings of \$450 million are in addition to the structural cost reductions of \$460 million achieved in fiscal 2009.

#### **Business Outlook**

Applied Materials expects net sales to grow by more than 30 percent in fiscal 2010.

### **Use of Non-GAAP Financial Measures**

Management uses non-GAAP results to evaluate the company's operating and financial performance in light of business objectives and for planning purposes. These measures are not in accordance with GAAP and may differ from non-GAAP methods of accounting and reporting used by other companies. Applied Materials believes these measures enhance investors' ability to review the company's business from the same perspective as the company's management and facilitate comparisons of this period's results with prior periods. The presentation of this additional information should not be considered a substitute for results prepared in accordance with GAAP.

# **Webcast Information**

Applied Materials will discuss these results during an earnings call that begins at 1:30 p.m. Pacific Time today. A live webcast will be available at <a href="https://www.appliedmaterials.com">www.appliedmaterials.com</a>.

### **Forward-Looking Statements**

This press release contains forward-looking statements, including statements regarding Applied Materials' performance, planned new operating structure and efficiencies, leadership position, EES fiscal 2010 profitability, customer landscape, cost reduction activities, restructuring plan (including scope, charges and timing), anticipated cost savings, and the fiscal 2010 net sales outlook. Forward-looking statements may contain words such as "expect," "believe," "may," "can," "should," "will," "forecast," "anticipate" or similar expressions, and include the assumptions that underlie such statements. These statements are subject to known and unknown risks and uncertainties that could cause actual results to differ materially from those expressed or implied by such statements, including but not limited to: the level of demand for nanomanufacturing technology products, which is subject to many factors, including uncertain global economic and industry conditions, the duration and severity of the current downturn, customers' ability to acquire affordable capital, business and consumer spending, demand for electronic products and semiconductors, governmental renewable energy policies and incentives, and customers' utilization rates and capacity requirements, including capacity utilizing the latest technology; variability of operating expenses and results among the company's segments caused by differing conditions in the served markets; Applied's ability to (i) develop, deliver and support a broad range of products, expand its markets and develop new markets, (ii) timely implement and maintain effective cost

reduction programs, realize expected benefits, and align its cost structure with business conditions, (iii) plan and manage its resources and production capability, including its supply chain, (iv) implement information technology, business process, outsourcing, business relocation and other initiatives that enhance global operations and efficiencies, (v) obtain and protect intellectual property rights in key technologies, (vi) attract, motivate and retain key employees, and (vii) accurately forecast future operating and financial results, which depends on multiple assumptions related to, without limitation, market conditions, business needs, hiring and departures of employees, acquisitions or divestitures, and compliance with U.S. and international labor and employment laws; and other risks described in Applied Materials' SEC filings. All forward-looking statements are based on management's estimates, projections and assumptions as of the date hereof. The company undertakes no obligation to update any forward-looking statements.

## **Prospective Non-GAAP Information**

Applied's statement that it expects its Energy and Environmental Solutions business to achieve profitability on a non-GAAP basis in fiscal 2010 assumes that the EES business will generate at least \$1 billion in net sales in fiscal 2010, includes revenue mix assumptions and excludes an estimated \$50 million in acquisition-related charges.
