Filed Pursuant to Rule 424(b) (5)

PROSPECTUS SUPPLEMENT

(To Prospectus dated June 28, 1995)

\$266,931,250

(LOGO - Applied Materials, Inc.)
MEDIUM-TERM NOTES, SERIES A

Due More Than Nine Months To 30 Years From Date of Issue

Applied Materials, Inc. (the "Company") may offer from time to time its Medium-Term Notes, which are issuable in one or more series and may be offered and sold in the United States. The Medium-Term Notes offered by this Prospectus Supplement are offered in the United States at an aggregate initial public offering price of up to U.S. \$266,931,250. Such aggregate offering price is subject to reduction as a result of the sale by the Company of other securities covered by the accompanying Prospectus. The interest rate on each Note will be established by the Company on the date of issue of such Note and will be either a fixed rate, which may be zero in the case of certain Original Issue Discount Notes, or a floating rate, as set forth herein and specified in the applicable Pricing Supplement. A Fixed Rate Note may pay a level amount in respect of both interest and principal amortized over the life of the Note (an "Amortizing Note").

Unless otherwise specified in the applicable Pricing Supplement, interest on each Note will be payable on the Interest Payment Dates set forth herein and in the applicable Pricing Supplement and at Maturity. Each Note will mature on any day more than nine months to 30 years from the date of issue, as set forth in the applicable Pricing Supplement. See "Description of Notes." Unless otherwise specified in the applicable Pricing Supplement, the Notes may not be redeemed by the Company or the Holder prior to maturity and will be issued in fully registered form in denominations of \$100,000 or any amount in excess thereof which is an integral multiple of \$1,000. Each Note will be represented either by a Global Security registered in the name of a nominee of The Depository Trust Company, as Depositary (a "Global Note"), or by a certificate issued in definitive form (a "Certificated Note"), as set forth in the applicable Pricing Supplement. Beneficial interests in Global Securities representing Global Notes will be shown on, and transfer thereof will be affected only through records maintained by the Depositary (with respect to participants' interests) and its participants. Global Notes will not be issuable as Certificated Notes except under the circumstances described herein.

THESE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE SECURITIES AND EXCHANGE COMMISSION OR ANY STATE SECURITIES COMMISSION NOR HAS THE SECURITIES AND EXCHANGE COMMISSION OR ANY STATE SECURITIES COMMISSION PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROSPECTUS SUPPLEMENT, ANY SUPPLEMENT HERETO OR THE PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

	Price to Public (1)	Agents' Commissions (2)	Proceeds to Company (2) (3)
Per Note.....	100%	.125% - .750%	99.875% - 99.250%
Total.....	\$266,931,250	\$333,664 - \$2,001,984	\$266,597,586 - \$264,929,266

(1) Unless otherwise specified in the applicable Pricing Supplement, Notes will be sold at 100% of their principal amount. If the Company issues any Note at a discount from or at a premium over its principal amount, the Price to Public of any Note issued at a discount or premium will be set forth in the applicable Pricing Supplement.

(2) The commission payable to an Agent for each Note sold through such Agent shall range from .125% to .750% of the principal amount of such Note. The Company may also sell Notes to an Agent, as principal at negotiated discounts, for resale to investors and other purchasers.

(3) Before deducting expenses payable by the Company estimated at \$435,000.

Offers to purchase the Notes are being solicited from time to time by Morgan Stanley & Co. Incorporated, Lehman Brothers, Lehman Brothers Inc. (including its affiliate Lehman Government Securities Inc.) and J.P. Morgan Securities Inc. (individually, an "Agent" and collectively, the "Agents"), on behalf of the Company. The Agents have agreed to use reasonable efforts to solicit purchases of such Notes. The Company may also sell Notes to an Agent acting as principal for resale to investors and other purchasers, to be determined by such Agent. The Company may otherwise sell the Notes. No termination date for the offering of the Notes has been established. The Company or an Agent may reject any order in whole or in part. The Notes will not be listed on any securities exchange, and there can be no assurance that the Notes offered hereby will be sold or that there will be a secondary market for the Notes or as to the liquidity of the secondary market if one develops. See "Plan of Distribution."

NO DEALER, SALESMAN OR ANY OTHER PERSON HAS BEEN AUTHORIZED TO GIVE ANY INFORMATION OR TO MAKE ANY REPRESENTATIONS OTHER THAN THOSE CONTAINED IN THIS PROSPECTUS SUPPLEMENT, ANY PRICING SUPPLEMENT AND THE ACCOMPANYING PROSPECTUS IN CONNECTION WITH THE OFFER CONTAINED IN THIS PROSPECTUS SUPPLEMENT, ANY PRICING SUPPLEMENT AND THE ACCOMPANYING PROSPECTUS AND, IF GIVEN OR MADE, SUCH INFORMATION OR REPRESENTATIONS MUST NOT BE RELIED UPON AS HAVING BEEN AUTHORIZED BY THE COMPANY OR BY THE AGENTS. THIS PROSPECTUS SUPPLEMENT, ANY PRICING SUPPLEMENT AND THE ACCOMPANYING PROSPECTUS DO NOT CONSTITUTE AN OFFER TO SELL OR A SOLICITATION OF AN OFFER TO BUY DEBT SECURITIES BY ANYONE IN ANY JURISDICTION IN WHICH SUCH OFFER OR SOLICITATION IS NOT AUTHORIZED OR IN WHICH THE PERSON MAKING SUCH OFFER OR SOLICITATION IS NOT QUALIFIED TO DO SO OR TO ANY PERSON TO WHOM IT IS UNLAWFUL TO MAKE SUCH OFFER OR SOLICITATION.

IN CONNECTION WITH THIS OFFERING, THE AGENTS MAY OVERALLOT OR EFFECT TRANSACTIONS WHICH STABILIZE OR MAINTAIN THE MARKET PRICE OF THE NOTES OFFERED HEREBY OR OTHER DEBT SECURITIES OF THE COMPANY AT LEVELS ABOVE THOSE WHICH MIGHT OTHERWISE PREVAIL IN THE OPEN MARKET. SUCH STABILIZING, IF COMMENCED, MAY BE DISCONTINUED AT ANY TIME.

DESCRIPTION OF NOTES

The following description of the particular terms of the Notes offered hereby supplements, and to the extent inconsistent therewith replaces, the description of the general terms and provisions of the Debt Securities set forth in the Prospectus, to which reference is hereby made. The particular terms of the Notes sold pursuant to any pricing supplement (a "Pricing Supplement") will be described therein. The terms and conditions set forth in "Description of Notes" will apply to each Note unless otherwise specified in the applicable Pricing Supplement and in such Note.

GENERAL

The Notes will be issued under the Indenture dated as of August 24, 1994 (the "Indenture") between the Company and Harris Trust Company of California, as trustee (the "Trustee"). The Notes issued under the Indenture will constitute one or more series under such Indenture. The Notes will rank pari passu with all other unsecured and unsubordinated indebtedness of the Company. The Notes may be issued from time to time in an aggregate principal amount of up to \$266,931,250, subject to reduction as a result of the sale by the Company of other securities covered by the accompanying Prospectus.

The Notes will mature on any day more than nine months to 30 years from the

date of issue, as set forth in the applicable Pricing Supplement. Except as may be provided in the applicable Pricing Supplement, the Notes will be issued only in fully registered form. Unless otherwise provided in the applicable Pricing Supplement, Notes will be denominated in Authorized Denominations (as defined below). The defeasance and covenant defeasance provisions of the Indenture described under the caption "Description of Debt Securities -- Defeasance and Covenant Defeasance" in the Prospectus will apply to the Notes.

The Notes will be offered on a continuing basis, and each Note will be issued initially as either a Global Note or a Certificated Note. Except as set forth in "-- Book-Entry System," Global Notes will not be issuable as Certificated Notes. The laws of some states may require that certain purchasers of securities take physical delivery of such securities in definitive form. Such limits and such laws may impair the ability to own, transfer or pledge beneficial interests in Global Securities. See "-- Book-Entry System" below.

The Notes may be presented for payment of principal and interest, transfer of the Notes will be registrable and the Notes will be exchangeable at the office of Harris Trust and Savings Bank, Attention: Indenture Trust, 311 West Monroe Street, 12th Floor, Chicago, Illinois 60606; provided that Global Notes will be exchangeable only in the manner and to the extent set forth in "-- Book-Entry System."

S-2

3

The applicable Pricing Supplement will specify the price (the "Issue Price") of each Note to be sold pursuant thereto (unless such Note is to be sold at 100% of its principal amount), the interest rate or interest rate formula, Stated Maturity and principal amount and any other terms on which each Note will be issued.

As used herein, the following terms shall have the meanings set forth below:

"Authorized Denominations" means, unless otherwise provided in the applicable Pricing Supplement, U.S. \$100,000 or any amount in excess thereof which is an integral multiple of U.S. \$1,000.

"Business Day" means any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which banking institutions are authorized or required by law or regulation to close in The City of New York and, with respect to LIBOR Notes (as defined below), is also a London Banking Day.

An "Interest Payment Date" with respect to any Note shall be a date on which, under the terms of such Note, regularly scheduled interest shall be payable.

"London Banking Day" means any day on which dealings in deposits in the Index Currency (as defined below) are transacted in the London interbank market.

"Original Issue Discount Note" means any Note that provides for an amount payable at Stated Maturity that exceeds its Issue Price by at least 0.25% of the amount payable at Stated Maturity, multiplied by the number of full years from the date of original issue to the Stated Maturity.

The "Record Date" with respect to any Interest Payment Date shall be the date 15 calendar days prior to such Interest Payment Date, whether or not such date shall be a Business Day.

"Stated Maturity" of a Note is the date specified in the applicable Pricing Supplement as the fixed date on which the principal of such Note is due and payable, and "Maturity" of a Note is the date on which the principal of the Note becomes due and payable, whether at Stated Maturity, by acceleration, early redemption or repayment or otherwise.

INTEREST AND PRINCIPAL PAYMENTS

Interest will be payable to the person in whose name the Note is registered at the close of business on the applicable Record Date; provided that the interest payable at Maturity (whether or not the date of Maturity is an Interest Payment Date) will be payable to the person to whom principal is payable. The

initial interest payment on a Note will be made on the first Interest Payment Date falling after the date the Note is issued; provided, however, that payments of interest (or, in the case of an Amortizing Note, principal and interest) on a Note issued less than 15 calendar days before an Interest Payment Date will be paid on the next succeeding Interest Payment Date to the Holder of record on the Record Date with respect to such succeeding Interest Payment Date, unless otherwise specified in the applicable Pricing Supplement.

Payments of interest, other than interest payable at Maturity, will be made by check mailed to the address of the person entitled thereto as shown on the Note register. Payment of principal, premium, if any, and interest at Maturity will be made in immediately available funds against presentation and surrender of the Note. Notwithstanding the foregoing, (a) the Depositary, as Holder of Global Notes, shall be entitled to receive payments of interest by wire transfer of immediately available funds and (b) a Holder of U.S. \$10,000,000 or more in aggregate principal amount of Certificated Notes of like tenor and terms shall be entitled to receive payments of interest by wire transfer of immediately available funds upon written request to the Trustee, provided such request is received not later than 15 calendar days prior to the applicable Interest Payment Date.

Certain Notes, including Original Issue Discount Notes, may be considered to be issued with original issue discount, which must be included in income for United States federal income tax purposes at a constant rate. See "Certain United States Federal Income Tax Consequences -- Original Issue Discount" below. Unless otherwise specified in the applicable Pricing Supplement, if the principal of any Original Issue Discount Note is declared to be due and payable immediately as described under "Description of Debt Securities -- Events of Default" in the Prospectus, the amount of principal due and payable with respect to

S-3

4

such Note shall be limited to the aggregate principal amount of such Note multiplied by the sum of its Issue Price (expressed as a percentage of the aggregate principal amount) plus the original issue discount amortized from the date of issue to the date of declaration, which amortization shall be calculated using the "interest method" (computed in accordance with generally accepted accounting principles in effect on the date of declaration). Special considerations applicable to any such Notes will be set forth in the applicable Pricing Supplement.

FIXED RATE NOTES

Each Fixed Rate Note will bear interest from the date of issuance at the annual rate stated on the face thereof until the principal thereof is paid or made available for payment. Unless otherwise specified in the applicable Pricing Supplement, such interest will be computed on the basis of a 360-day year of twelve 30-day months. Unless otherwise specified in the applicable Pricing Supplement, payments of interest on Fixed Rate Notes other than Amortizing Notes will be made semiannually on each date set forth in the applicable Pricing Supplement and at Maturity. Unless otherwise specified in the applicable Pricing Supplement, payments of principal and interest on Amortizing Notes, which are securities on which payments of principal and interest are made in equal installments over the life of the security, will be made either quarterly or semiannually on each date set forth in the applicable Pricing Supplement and at Maturity. Payments with respect to Amortizing Notes will be applied first to interest due and payable thereon and then to the reduction of the unpaid principal amount thereof. A table setting forth repayment information in respect of each Amortizing Note will be provided to the original purchaser and will be available, upon request, to subsequent Holders.

If any Interest Payment Date or the Maturity of any Fixed Rate Note falls on a day that is not a Business Day, the related payment of the interest and principal (and premium, if any) shall be made on the next day that is a Business Day, and no interest on such payment shall accrue as a result of such delayed payment.

Interest payments for Fixed Rate Notes will include accrued interest from and including the date of issue or from and including the last date in respect of which interest has been paid, as the case may be, to, but excluding, the Interest Payment Date or Maturity. The interest rates the Company will agree to pay on newly issued Fixed Rate Notes are subject to change without notice by the

Company from time to time, but no such change will affect any Fixed Rate Notes theretofore issued or that the Company has agreed to issue.

FLOATING RATE NOTES

Each Floating Rate Note will bear interest from the date of issuance until the principal thereof is paid or made available for payment at a rate determined by reference to an interest rate basis or formula (the "Base Rate"), which may be adjusted by a Spread and/or Spread Multiplier (each as defined below). The applicable Pricing Supplement will designate one or more of the following Base Rates as applicable to each Floating Rate Note: (a) the CD Rate (a "CD Rate Note"), (b) the Commercial Paper Rate (a "Commercial Paper Rate Note"), (c) the Federal Funds Rate (a "Federal Funds Rate Note"), (d) LIBOR (a "LIBOR Note"), (e) the Prime Rate (a "Prime Rate Note"), (f) the Treasury Rate (a "Treasury Rate Note"), (g) the CMT Rate (a "CMT Rate Note") or (h) such other Base Rate or interest rate formula as is set forth in such Pricing Supplement and in such Floating Rate Note. The "Index Maturity" for any Floating Rate Note is the period of maturity of the instrument or obligation from which the Base Rate is calculated and will be specified in the applicable Pricing Supplement.

Unless otherwise specified in the applicable Pricing Supplement, the interest rate on each Floating Rate Note will be calculated by reference to the specified Base Rate (i) plus or minus the Spread, if any, and/or (ii) multiplied by the Spread Multiplier, if any. The "Spread" is the number of basis points (one one-hundredth of a percentage point) specified in the applicable Pricing Supplement to be added to or subtracted from the Base Rate for such Floating Rate Note, and the "Spread Multiplier" is the percentage specified in the applicable Pricing Supplement to be applied to the Base Rate for such Floating Rate Note.

As specified in the applicable Pricing Supplement, a Floating Rate Note may also have either or both of the following: (i) a maximum limitation, or ceiling, on the rate of interest which may accrue during any interest period ("Maximum Interest Rate"); and (ii) a minimum limitation, or floor, on the rate of interest

S-4

5

which may accrue during any interest period ("Minimum Interest Rate"). In addition to any Maximum Interest Rate that may be applicable to any Floating Rate Note pursuant to the above provisions, the interest rate on a Floating Rate Note will in no event be higher than the maximum rate permitted by applicable law.

Unless otherwise specified in the applicable Pricing Supplement, the rate of interest on each Floating Rate Note will be reset daily, weekly, monthly, quarterly, semiannually or annually (such period being the "Interest Reset Period" for such Note, and the first day of each Interest Reset Period being an "Interest Reset Date"), as specified in the applicable Pricing Supplement. Unless otherwise specified in the Pricing Supplement, the Interest Reset Date will be, in the case of Floating Rate Notes which reset daily, each Business Day; in the case of Floating Rate Notes (other than Treasury Rate Notes) which reset weekly, the Wednesday of each week; in the case of Treasury Rate Notes which reset weekly, the Tuesday of each week, except as provided below; in the case of Floating Rate Notes which reset monthly, the third Wednesday of each month; in the case of Floating Rate Notes which reset quarterly, the third Wednesday of March, June, September and December; in the case of Floating Rate Notes which reset semiannually, the third Wednesday of two months of each year, as specified in the applicable Pricing Supplement; and in the case of Floating Rate Notes which reset annually, the third Wednesday of one month of each year, as specified in the applicable Pricing Supplement. If any Interest Reset Date for any Floating Rate Note would otherwise be a day that is not a Business Day, such Interest Reset Date shall be postponed to the next succeeding Business Day, except that in the case of a LIBOR Note, if such Business Day is in the next succeeding calendar month, such Interest Reset Date shall be the immediately preceding Business Day. Treasury bills are normally sold at auction on Monday of each week, unless that day is a legal holiday, in which case the auction is normally held on the following Tuesday, but such auction may be held on the preceding Friday. If an auction falls on a day that is an Interest Reset Date for Treasury Rate Notes, the Interest Reset Date shall be the following day that is a Business Day.

Except as provided below, unless otherwise specified in the applicable

Pricing Supplement, interest on Floating Rate Notes will be payable: (i) in the case of Floating Rate Notes with a daily, weekly or monthly Interest Reset Date, on the third Wednesday of each month or on the third Wednesday of March, June, September and December, as specified in the applicable Pricing Supplement; (ii) in the case of Floating Rate Notes with a quarterly Interest Reset Date, on the third Wednesday of March, June, September and December; (iii) in the case of Floating Rate Notes with a semiannual Interest Reset Date, on the third Wednesday of the two months specified in the applicable Pricing Supplement; and (iv) in the case of Floating Rate Notes with an annual Interest Reset Date, on the third Wednesday of the month specified in the applicable Pricing Supplement. If any Interest Payment Date for any Floating Rate Note would fall on a day that is not a Business Day with respect to such Floating Rate Note, such Interest Payment Date will be postponed to the following day that is a Business Day with respect to such Floating Rate Note, except that, in the case of a LIBOR Note, if such Business Day is in the next succeeding calendar month, such Interest Payment Date shall be the immediately preceding day that is a Business Day with respect to such LIBOR Note. If the Maturity of a Floating Rate Note would fall on a day that is not a Business Day, the payment of principal, premium, if any, and interest will be made on the next succeeding Business Day, and no interest on such payment shall accrue as a result of such delayed payment.

Unless otherwise specified in the applicable Pricing Supplement, interest payments for Floating Rate Notes shall be the amount of interest accrued from and including the date of issue or from and including the last date to which interest has been paid to, but excluding, the Interest Payment Date or maturity date or date of redemption or repayment.

With respect to a Floating Rate Note, accrued interest shall be calculated by multiplying the principal amount of such Floating Rate Note by an accrued interest factor. Such accrued interest factor will be computed by adding the interest factors calculated for each day in the period for which interest is being paid. Unless otherwise specified in the applicable Pricing Supplement, the interest factor for each such day is computed by dividing the interest rate applicable to such day by 360, in the case of CD Rate Notes, Commercial Paper Rate Notes, Federal Funds Rate Notes, LIBOR Notes and Prime Rate Notes or by the actual number of days in the year, in the case of Treasury Rate Notes and CMT Rate Notes. All percentages used in or resulting from any calculation of the rate of interest on a Floating Rate Note will be rounded, if

S-5

6

necessary, to the nearest one hundred-thousandth of a percentage point, with five one-millionths of a percentage point rounded upward, and all dollar amounts used in or resulting from such calculation on Floating Rate Notes will be rounded to the nearest cent, with one-half cent rounded upward. The interest rate in effect on any Interest Reset Date will be the applicable rate as reset on such date. The interest rate applicable to any other day is the interest rate from the immediately preceding Interest Reset Date; provided, however, that the interest rate in effect from the date of issue to the first Interest Reset Date with respect to a Floating Rate Note will be the initial interest rate set forth in the applicable Pricing Supplement (the "Initial Interest Rate").

The calculation agent (the "Calculation Agent") with respect to any issue of Floating Rate Notes will be set forth in the applicable Pricing Supplement. Upon the request of the Holder of any Floating Rate Note, the Calculation Agent will provide the interest rate then in effect and, if determined, the interest rate that will become effective on the next Interest Reset Date with respect to such Floating Rate Note.

The "Interest Determination Date" pertaining to an Interest Reset Date for CD Rate Notes, Commercial Paper Rate Notes, Federal Funds Rate Notes, CMT Rate Notes and Prime Rate Notes will be the second Business Day next preceding such Interest Reset Date. The Interest Determination Date pertaining to an Interest Reset Date for a LIBOR Note will be the second London Banking Day preceding such Interest Reset Date. The Interest Determination Date pertaining to an Interest Reset Date for a Treasury Rate Note will be the day of the week in which such Interest Reset Date falls on which Treasury bills would normally be auctioned. If, as the result of a legal holiday, an auction is held on the preceding Friday, such Friday will be the Interest Determination Date pertaining to the Interest Reset Date occurring in the next succeeding week.

Unless otherwise specified in the applicable Pricing Supplement, the "Calculation Date," where applicable, pertaining to an Interest Determination

Date will be the earlier of (i) the tenth calendar day after such Interest Determination Date, or, if such day is not a Business Day, the next succeeding Business Day, or (ii) the Business Day preceding the applicable Interest Payment Date or Maturity, as the case may be.

Interest rates will be determined by the Calculation Agent as follows:

CD Rate Notes

CD Rate Notes will bear interest at the interest rate (calculated with reference to the CD Rate and the Spread and/or Spread Multiplier, if any, and subject to the Minimum Interest Rate and the Maximum Interest Rate, if any) specified in the CD Rate Notes and in the applicable Pricing Supplement.

Unless otherwise specified in the applicable Pricing Supplement, "CD Rate" means, with respect to any Interest Determination Date, the rate on such date for negotiable certificates of deposit having the Index Maturity designated in the applicable Pricing Supplement as published by the Board of Governors of the Federal Reserve System in "Statistical Release H.15(519), Selected Interest Rates," or any successor publication of the Board of Governors of the Federal Reserve System ("H.15(519)"), under the heading "CDs (Secondary Market)," or, if not so published by 9:00 A.M., New York City time, on the Calculation Date pertaining to such Interest Determination Date, the CD Rate will be the rate on such Interest Determination Date for negotiable certificates of deposit of the Index Maturity designated in the applicable Pricing Supplement as published by the Federal Reserve Bank of New York in its daily statistical release "Composite 3:30 P.M. Quotations for U.S. Government Securities" (the "Composite Quotations") under the heading "Certificates of Deposit." If such rate is not yet published in either H.15(519) or the Composite Quotations by 3:00 P.M., New York City time, on the Calculation Date pertaining to such Interest Determination Date, the CD Rate on such Interest Determination Date will be calculated by the Calculation Agent and will be the arithmetic mean of the secondary market offered rates as of 10:00 A.M., New York City time, on such Interest Determination Date for certificates of deposit in an amount that is representative for a single transaction at that time with a remaining maturity closest to the Index Maturity designated in the Pricing Supplement of three leading nonbank dealers in negotiable U.S. dollar certificates of deposit in The City of New York selected by the Calculation Agent (after consultation with the Company) for negotiable certificates of deposit of major United States money center banks; provided, however, that if the dealers selected as aforesaid by the Calculation Agent are not quoting as set forth above, the CD Rate in effect for the

S-6

7

applicable period will be the same as the CD Rate for the immediately preceding Interest Reset Period (or, if there was no such Interest Reset Period, the rate of interest payable on the CD Rate Notes for which such CD Rate is being determined shall be the Initial Interest Rate).

Commercial Paper Rate Notes

Commercial Paper Rate Notes will bear interest at the interest rate (calculated with reference to the Commercial Paper Rate and the Spread and/or Spread Multiplier, if any, and subject to the Minimum Interest Rate and the Maximum Interest Rate, if any) specified in the Commercial Paper Rate Notes and in the applicable Pricing Supplement.

Unless otherwise specified in the applicable Pricing Supplement, "Commercial Paper Rate" means, with respect to any Interest Determination Date, the Money Market Yield (as defined below) of the rate on such date for commercial paper having the Index Maturity specified in the applicable Pricing Supplement, as such rate shall be published in H.15(519) under the heading "Commercial Paper." In the event that such rate is not published by 9:00 A.M., New York City time, on the Calculation Date pertaining to such Interest Determination Date, then the Commercial Paper Rate shall be the Money Market Yield of the rate on such Interest Determination Date for commercial paper of the specified Index Maturity as published in Composite Quotations under the heading "Commercial Paper." If by 3:00 P.M., New York City time, on such Calculation Date such rate is not yet available in either H.15(519) or Composite Quotations, then the Commercial Paper Rate shall be the Money Market Yield of the arithmetic mean of the offered rates as of 11:00 A.M., New York City time, on such Interest Determination Date of three leading dealers of commercial paper

in The City of New York selected by the Calculation Agent (after consultation with the Company) for commercial paper of the specified Index Maturity, placed for an industrial issuer whose bond rating is "AA," or the equivalent, from a nationally recognized rating agency; provided, however, that if the dealers selected as aforesaid by the Calculation Agent are not quoting offered rates as mentioned in this sentence, the Commercial Paper Rate in effect for the applicable period will be the same as the Commercial Paper Rate for the immediately preceding Interest Reset Period (or, if there was no such Interest Reset Period, the rate of interest payable on the Commercial Paper Rate Notes for which such Commercial Paper Rate is being determined shall be the Initial Interest Rate).

"Money Market Yield" shall be a yield calculated in accordance with the following formula:

$$\text{Money Market Yield} = \frac{D \times 360}{360 - (D \times M)} \times 100$$

where "D" refers to the applicable per annum rate for commercial paper quoted on a bank discount basis and expressed as a decimal, and "M" refers to the actual number of days in the specified Index Maturity.

Federal Funds Rate Notes

Federal Funds Rate Notes will bear interest at the interest rate (calculated with reference to the Federal Funds Rate and the Spread and/or Spread Multiplier, if any, and subject to the Minimum Interest Rate and the Maximum Interest Rate, if any) specified in the Federal Funds Rate Notes and in the applicable Pricing Supplement.

Unless otherwise specified in the applicable Pricing Supplement, the "Federal Funds Rate" means, with respect to any Interest Determination Date, the rate on such date for Federal funds as published in H.15(519) under the heading "Federal Funds (Effective)," or, if not so published by 9:00 A.M., New York City time, on the Calculation Date pertaining to such Interest Determination Date, the Federal Funds Rate will be the rate on such Interest Determination Date as published in the Composite Quotations under the heading "Federal Funds/Effective Rate." If such rate is not yet published in either H.15(519) or the Composite Quotations by 3:00 P.M., New York City time, on the Calculation Date pertaining to such Interest Determination Date, the Federal Funds Rate for such Interest Determination Date will be calculated by the Calculation Agent and will be the arithmetic mean of the rates for the last transaction in overnight Federal funds as of 11:00 A.M., New York City time, on such Interest Determination Date arranged by three leading brokers of Federal funds

S-7

8

transactions in The City of New York selected by the Calculation Agent (after consultation with the Company); provided, however, that if the brokers selected as aforesaid by the Calculation Agent are not quoting as set forth above, the Federal Funds Rate in effect for the applicable period will be the same as the Federal Funds Rate for the immediately preceding Interest Reset Period (or, if there was no such Interest Reset Period, the rate of interest payable on the Federal Funds Rate Notes for which such Federal Funds Rate is being determined shall be the Initial Interest Rate).

LIBOR Notes

LIBOR Notes will bear interest at the interest rate (calculated with reference to LIBOR and the Spread and/or Spread Multiplier, if any, and subject to the Minimum Interest Rate and the Maximum Interest Rate, if any) specified in the LIBOR Notes and in the applicable Pricing Supplement.

Unless otherwise specified in the applicable Pricing Supplement, "LIBOR" for each Interest Determination Date will be determined by the Calculation Agent as follows:

- (i) As of the Interest Determination Date, LIBOR will be either: (a)

if "LIBOR Reuters" is specified in the applicable Pricing Supplement, the arithmetic mean of the offered rates (unless the specified Designated LIBOR Page (as defined below) by its terms provides only for a single rate, in which case such single rate shall be used) for deposits in the London interbank market in the Index Currency for the period of the Index Maturity designated in the applicable Pricing Supplement, commencing on the second London Banking Day immediately following such Interest Determination Date, that appear on the Designated LIBOR Page at approximately 11:00 A.M., London time, on that Interest Determination Date, if at least two such offered rates appear (unless, as aforesaid, only a single rate is required) on such Designated LIBOR Page, or (b) if "LIBOR Telerate" is specified in the applicable Pricing Supplement, the rate for deposits in the Index Currency for the period of the Index Maturity designated in the applicable Pricing Supplement, commencing on such Interest Determination Date, that appears on the Designated LIBOR Page at approximately 11:00 A.M., London time, on that Interest Determination Date. If fewer than two offered rates appear (if "LIBOR Reuters" is specified in the applicable Pricing Supplement and calculation of LIBOR is based on the arithmetic mean of the offered rates) or if no rate appears (if "LIBOR Reuters" is specified in the applicable Pricing Supplement and the Designated LIBOR Page by its terms provides only for a single rate or if "LIBOR Telerate" is specified in the applicable Pricing Supplement), LIBOR in respect of the related Interest Determination Date will be determined as if the parties had specified the rate described in clause (ii) below.

(ii) With respect to an Interest Determination Date on which fewer than two offered rates appear (if "LIBOR Reuters" is specified in the applicable Pricing Supplement and the calculation of LIBOR is based on the arithmetic mean of the offered rates) or no rate appears (if "LIBOR Reuters" is specified in the applicable Pricing Supplement and the Designated LIBOR Page by its terms provides only for a single rate or if "LIBOR Telerate" is specified in the applicable Pricing Supplement), the Calculation Agent will request the principal London offices of each of four major reference banks in the London interbank market, as selected by the Calculation Agent (after consultation with the Company), to provide the Calculation Agent with its offered quotations for deposits in the Index Currency for the period of the Index Maturity designated in the applicable Pricing Supplement, commencing on the second London Banking Day immediately following such Interest Determination Date, to prime banks in the London interbank market at approximately 11:00 A.M., London time, on such Interest Determination Date and in a principal amount of not less than U.S. \$1,000,000 (or the equivalent in the Index Currency, if the Index Currency is not the U.S. dollar) that is representative of a single transaction in such Index Currency in such market at such time. If at least two such quotations are provided, LIBOR determined on such Interest Determination Date will be the arithmetic mean of such quotations. If fewer than two quotations are provided, LIBOR determined on such Interest Determination Date will be the arithmetic mean of the rates quoted at approximately 11:00 A.M. (or such other time specified in the applicable Pricing Supplement), in the applicable principal financial center for the country of the Index Currency on such Interest Determination Date, by three major banks in such principal financial center

S-8

9

selected by the Calculation Agent (after consultation with the Company) for loans in the Index Currency to leading European banks, for the period of the Index Maturity designated in the applicable Pricing Supplement commencing on the second London Banking Day immediately following such Interest Determination Date and in a principal amount of not less than U.S. \$1,000,000 (or the equivalent in the Index Currency, if the Index Currency is not the U.S. dollar) that is representative of a single transaction in such Index Currency in such market at such time; provided, however, that if the banks so selected by the Calculation Agent are not quoting as mentioned in this sentence, LIBOR in effect for the applicable period will be the same as LIBOR for the immediately preceding Interest Reset Period (or, if there was no such Interest Reset Period, the rate of interest payable on the LIBOR Notes for which such LIBOR is being determined shall be the Initial Interest Rate).

"Index Currency" means the currency (including composite currencies) specified in the applicable Pricing Supplement as the currency for which LIBOR shall be calculated. If no such currency is specified in the applicable Pricing

Supplement, the Index Currency shall be U.S. dollars.

"Designated LIBOR Page" means either (a) if "LIBOR Reuters" is designated in the applicable Pricing Supplement, the display on the Reuters Monitor Money Rates Service for the purpose of displaying the London interbank rates of major banks for the applicable Index Currency, or (b) if "LIBOR Telerate" is designated in the applicable Pricing Supplement, the display on the Dow Jones Telerate Service for the purpose of displaying the London interbank rates of major banks for the applicable Index Currency. If neither LIBOR Reuters nor LIBOR Telerate is specified in the applicable Pricing Supplement, LIBOR for the applicable Index Currency will be determined as if LIBOR Telerate (and, if the U.S. dollar is the Index Currency, Page 3750) had been specified.

Prime Rate Notes

Prime Rate Notes will bear interest at the interest rate (calculated with reference to the Prime Rate and the Spread and/or Spread Multiplier, if any, and subject to the Minimum Interest Rate and the Maximum Interest Rate, if any) specified in the Prime Rate Notes and in the applicable Pricing Supplement.

Unless otherwise specified in the applicable Pricing Supplement, "Prime Rate" means, with respect to any Interest Determination Date, the rate set forth in H.15(519) for such date opposite the caption "Bank Prime Loan." If such rate is not yet published by 9:00 A.M., New York City time, on the Calculation Date pertaining to such Interest Determination Date, the Prime Rate for such Interest Determination Date will be the arithmetic mean of the rates of interest publicly announced by each bank named on the Reuters Screen NYMF Page (as defined below) as such bank's prime rate or base lending rate as in effect for such Interest Determination Date as quoted on the Reuters Screen NYMF Page on such Interest Determination Date, or, if fewer than four such rates appear on the Reuters Screen NYMF Page for such Interest Determination Date, the rate shall be the arithmetic mean of the prime rates quoted on the basis of the actual number of days in the year divided by 360 as of the close of business on such Interest Determination Date by at least two of the three major money center banks in The City of New York selected by the Calculation Agent from which quotations are requested. If fewer than two quotations are provided, the Prime Rate shall be calculated by the Calculation Agent and shall be determined as the arithmetic mean on the basis of the prime rates in The City of New York by the appropriate number of substitute banks or trust companies organized and doing business under the laws of the United States, or any state thereof, in each case having total equity capital of at least U.S. \$500,000,000 and being subject to supervision or examination by federal or state authority, selected by the Calculation Agent (after consultation with the Company) to quote such rate or rates; provided, however, that if the banks or trust companies selected as aforesaid by the Calculation Agent are not quoting as set forth above, the Prime Rate in effect for the applicable period will be the same as the Prime Rate for the immediately preceding Interest Reset Period (or, if there was no such Interest Reset Period, the rate of interest payable on the Prime Rate Notes for which such Prime Rate is being determined shall be the Initial Interest Rate). "Reuters Screen NYMF Page" means the display designated as Page "NYMF" on the Reuters Monitor Money Rates Services (or such other page as may replace the NYMF Page on that service for the purpose of displaying prime rates or base lending rates of major United States banks).

S-9

10

Treasury Rate Notes

Treasury Rate Notes will bear interest at the interest rate (calculated with reference to the Treasury Rate and the Spread and/or Spread Multiplier, if any, and subject to the Minimum Interest Rate and the Maximum Interest Rate, if any) specified in the Treasury Rate Notes and in the applicable Pricing Supplement.

Unless otherwise specified in the applicable Pricing Supplement, the "Treasury Rate" means, with respect to any Interest Determination Date, the rate for the auction held on such date of direct obligations of the United States ("Treasury Bills") having the Index Maturity designated in the applicable Pricing Supplement, as published in H.15(519) under the heading "Treasury Bills -- auction average (investment)" or, if not so published by 9:00 A.M., New York City time, on the Calculation Date pertaining to such Interest Determination Date, the auction average rate on such Interest Determination Date (expressed as a bond equivalent, on the basis of a year of 365 or 366 days, as

applicable, and applied on a daily basis) as otherwise announced by the United States Department of the Treasury. In the event that the results of the auction of Treasury Bills having the Index Maturity designated in the applicable Pricing Supplement are not published or reported as provided above by 3:00 P.M., New York City time, on such Calculation Date or if no such auction is held on such Interest Determination Date, then the Treasury Rate shall be calculated by the Calculation Agent and shall be a yield to maturity (expressed as a bond equivalent, on the basis of a year of 365 or 366 days, as applicable, and applied on a daily basis) calculated using the arithmetic mean of the secondary market bid rates, as of approximately 3:30 P.M., New York City time, on such Interest Determination Date, of three leading primary United States government securities dealers selected by the Calculation Agent (after consultation with the Company) for the issue of Treasury Bills with a remaining maturity closest to the Index Maturity designated in the applicable Pricing Supplement; provided, however, that if the dealers selected as aforesaid by the Calculation Agent are not quoting bid rates as mentioned in this sentence, the Treasury Rate for such Interest Reset Date will be the same as the Treasury Rate for the immediately preceding Interest Reset Period (or, if there was no such Interest Reset Period, the rate of interest payable on the Treasury Rate Notes for which the Treasury Rate is being determined shall be the Initial Interest Rate).

CMT Rate Notes

CMT Rate Notes will bear interest at the interest rate (calculated with reference to the CMT Rate and the Spread and/or Spread Multiplier, if any, and subject to the Minimum Interest Rate and the Maximum Interest Rate, if any) specified in the CMT Rate Notes and in the applicable Pricing Supplement.

Unless otherwise indicated in an applicable Pricing Supplement, "CMT Rate" means, with respect to any Interest Determination Date, the rate displayed on the Designated CMT Telerate Page (as defined below) under the caption "... Treasury Constant Maturities ... Federal Reserve Board Release H.15 ... Mondays Approximately 3:45 p.m.," under the column for the Designated CMT Maturity Index (as defined below) for (i) if the Designated CMT Telerate Page is 7055, the rate on such Interest Determination Date and (ii) if the Designated CMT Telerate Page is 7052, the week or the month, as applicable, ended immediately preceding the week in which the related Interest Determination Date occurs. If such rate is no longer displayed on the relevant page, or if not displayed by 3:00 p.m., New York City time, on the related Calculation Date, then the CMT Rate for such Interest Determination Date will be such Treasury Constant Maturity rate for the Designated CMT Maturity Index as published in the relevant H.15(519). If such rate is no longer published, or, if not published by 3:00 p.m., New York City time, on the related Calculation Date, then the CMT Rate for such Interest Determination Date will be such Treasury Constant Maturity rate for the Designated CMT Maturity Index (or other United States Treasury rate for the Designated CMT Maturity Index) for the Interest Determination Date with respect to such Interest Reset Date as may then be published by either the Board of Governors of the Federal Reserve System or the United States Department of the Treasury that the Calculation Agent determines to be comparable to the rate formerly displayed on the Designated CMT Telerate Page and published in the relevant H.15(519). If such information is not provided by 3:00 p.m., New York City time, on the related Calculation Date, then the CMT Rate for the Interest Determination Date will be calculated by the Calculation Agent and will be a yield to maturity, based on the arithmetic mean of the secondary market closing offer side prices as of approximately 3:30 p.m., New York City time, on the Interest

S-10

Determination Date reported, according to their written records, by three leading primary United States government securities dealers (each, a "Reference Dealer") in The City of New York (which may include the Agents or their affiliates) selected by the Calculation Agent (from five such Reference Dealers selected by the Calculation Agent, after consultation with the Company, and eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest)), for the most recently issued direct noncallable fixed rate obligations of the United States ("Treasury notes") with an original maturity of approximately the Designated CMT Maturity Index and remaining term to maturity of not less than such Designated CMT Maturity Index minus one year. If the Calculation Agent cannot obtain three such Treasury notes quotations, the CMT Rate for such Interest Determination Date will be calculated by the Calculation Agent and will be a yield to maturity based on the arithmetic mean of the

secondary market offer side prices as of approximately 3:30 p.m., New York City time, on the Interest Determination Date of three Reference Dealers in The City of New York (from five such Reference Dealers selected by the Calculation Agent and eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest)), for Treasury notes with an original maturity of the number of years that is the next highest to the Designated CMT Maturity Index and a remaining term to maturity closest to the Designated CMT Maturity Index and in an amount of at least \$100,000,000. If three or four (and not five) of such Reference Dealers are quoting as described above, then the CMT Rate will be based on the arithmetic mean of the offer prices obtained and neither the highest nor the lowest of such quotes will be eliminated; provided however, that if fewer than three Reference Dealers selected by the Calculation Agent are quoting as described herein, the CMT Rate for such Interest Reset Date will be the same as the CMT Rate for the immediately preceding Interest Reset Period (or, if there was no such Interest Reset Period, the rate of interest payable on the CMT Rate Notes for which the CMT Rate is being determined shall be the Initial Interest Rate). If two Treasury notes with an original maturity as described in the third preceding sentence have remaining terms to maturity equally close to the Designated CMT Maturity Index, the quotes for the Treasury note with the shorter remaining term to maturity will be used.

"Designated CMT Telerate Page" means the display on the Dow Jones Telerate Service on the page designated in an applicable Pricing Supplement (or any other page as may replace such page on that service for the purpose of displaying Treasury Constant Maturities as reported in H.15(519)), for the purpose of displaying Treasury Constant Maturities as reported in H.15(519). If no such page is specified in the applicable Pricing Supplement, the Designated CMT Telerate Page shall be 7052, for the most recent week.

"Designated CMT Maturity Index" shall be the original period to maturity of the U.S. Treasury securities (either 1, 2, 3, 5, 7, 10, 20 or 30 years) specified in an applicable Pricing Supplement with respect to which the CMT Rate will be calculated. If no such maturity is specified in the applicable Pricing Supplement, the Designated CMT Maturity Index shall be two years.

INDEXED NOTES

The Notes may be issued, from time to time, as Notes where the principal amount payable at Maturity and/or on which the amount of interest payable on an Interest Payment Date will be determined by reference to currencies, currency units, commodity prices, financial or non-financial indices or other factors ("Indexed Notes"), as indicated in the applicable Pricing Supplement. Holders of Indexed Notes may receive a principal amount at Maturity that is greater than or less than the face amount of such Notes depending upon the fluctuation of the relative value, rate or price of the specified index. Specific information pertaining to the method for determining the principal amount payable at Maturity, a historical comparison of the relative value, rate or price of the specified index and the face amount of the Indexed Note and certain additional United States federal income tax consequences will be described in the applicable Pricing Supplement.

BOOK-ENTRY SYSTEM

Upon issuance, all Fixed Rate Global Notes having the same Issue Date, interest rate, if any, amortization schedule, if any, Stated Maturity and other terms, if any, will be represented by one or more Global Securities, and all Floating Rate Global Notes having the same Issue Date, Initial Interest Rate, Base

S-11

Rate, Interest Reset Dates, Interest Payment Dates, Index Maturity, Spread and/or Spread Multiplier, if any, Minimum Interest Rate, if any, Maximum Interest Rate, if any, Stated Maturity and other terms, if any, will be represented by one or more Global Securities. Each Global Security representing Global Notes will be deposited with, or on behalf of, The Depository Trust Company, New York, New York (the "Depository"), and registered in the name of a nominee of the Depository. Global Notes will not be exchangeable for Certificated Notes, except under the circumstances described below. Certificated Notes will not be exchangeable for Global Notes and will not otherwise be issuable as Global Notes.

The Depositary has advised the Company and the Agents as follows: the Depositary is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. The Depositary holds securities that its participants ("Participants") deposit with the Depositary. The Depositary facilitates the settlement among Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in Participants' accounts, thereby eliminating the need for physical movement of securities certificates. "Direct Participants" include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. The Depositary is owned by a number of its Direct Participants and by the New York Stock Exchange, Inc., the American Stock Exchange, Inc. and the National Association of Securities Dealers, Inc. Access to the Depositary's system is also available to others such as banks, securities brokers and dealers and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). The Rules applicable to the Depositary and its participants are on file with the Securities and Exchange Commission.

Purchase of interests in the Global Notes under the Depositary's system must be made by or through Direct Participants, which will receive a credit for such interests on the Depositary's records. The ownership interest of each actual purchaser of interests in the Global Notes ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from the Depositary of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transactions, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Global Notes are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the Global Notes, except as described below.

To facilitate subsequent transfers, all Global Notes deposited by Participants with the Depositary are registered in the name of the Depositary's partnership nominee, Cede & Co. The deposit of Global Notes with the Depositary and their registration in the name of Cede & Co. effect no change in beneficial ownership. The Depositary has no knowledge of the actual Beneficial Owners of the interests in the Global Notes; the Depositary's records reflect only the identity of the Direct Participants to whose accounts interests in the Global Notes are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by the Depositary to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to Cede & Co. If less than all the interests in the Global Notes are being redeemed, the Depositary's practice is to determine by lot the amount of the interest of each Direct Participant in such Global Note to be redeemed.

Neither the Depositary nor Cede & Co. will consent or vote with respect to the Global Notes. Under its usual procedures, the Depositary mails an Omnibus Proxy to the issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to

S-12

whose accounts interests in the Global Notes are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal and interest payments on the Global Notes will be made to the Depositary. The Depositary's practice is to credit Direct Participants' accounts on the payment date in accordance with their respective holdings shown on the Depositary's records unless the Depositary has reason to believe that it will

not receive payment on the payment date. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of the Depositary, the Trustee, the Company, any paying agent or any securities registrar, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest to the Depositary is the responsibility of the Company or its paying agent, disbursement of such payments to Direct and Indirect Participants shall be the responsibility of the Depositary, and disbursement of such payments to the Beneficial Owners shall be the responsibility of Direct and Indirect Participants.

The Depositary may discontinue providing its services as depositary with respect to the Notes at any time by giving reasonable notice to the Company or its paying agent. Under such circumstances, in the event that a successor depositary is not obtained, Certificated Notes are required to be printed and delivered. The Company may decide to discontinue use of the system of book-entry transfers through the Depositary (or a successor depositary). In that event, Certificated Notes will be printed and delivered.

Unless and until it is exchanged in whole or in part for Certificated Notes of such series in definitive form, a Global Note may not be transferred except as a whole by the Depositary to a nominee of such Depositary or by a nominee of such Depositary to such Depositary or another nominee of such Depositary or by such Depositary or any such nominee to a successor of such Depositary or nominee of such successor.

The Global Notes represented by one or more Global Securities are exchangeable for Certificated Notes in definitive form of like tenor if (i) the Depositary for such Global Notes notifies the Company and the Trustee in writing that it is unwilling or unable to continue as Depositary for such Global Notes or if at any time such Depositary ceases to be a clearing agency registered under the Securities Exchange Act of 1934, as amended, and, in either case, a successor depositary is not appointed by the Company within 90 days, (ii) the Company in its sole discretion determines not to have all of the Notes represented by one or more Global Note or Notes and notifies the Trustee thereof, or (iii) an Event of Default or an event which, with the giving of notice or lapse of time, or both, would constitute an Event of Default has occurred and is continuing with respect to the Notes. Any Global Note that is exchangeable pursuant to the preceding sentence is exchangeable for Certificated Notes issuable in authorized denominations and registered in such names as the Depositary holding such Global Note shall direct. Subject to the foregoing, a Global Note is not exchangeable, except for a Global Note or Global Notes of the same aggregate denomination to be registered in the name of such Depositary or its nominee or in the name of a successor of such Depositary or a nominee of such successor.

The information in this section concerning the Depositary and the Depositary's book-entry system has been obtained from sources that the Company believes to be reliable, but the Company takes no responsibility for the accuracy thereof.

OPTIONAL REDEMPTIONS

The Pricing Supplement will indicate that the Notes cannot be redeemed prior to Stated Maturity or will indicate the terms on which the Notes will be redeemable at the option of the Company. Notice of redemption will be provided by mailing a notice of such redemption to each Holder by first class mail, postage prepaid, at least 30 days and not more than 60 days prior to the date fixed for redemption to the respective address of each Holder as that address appears upon the books maintained by the Trustee. Unless otherwise provided in the applicable Pricing Supplement, the Notes, except for Amortizing Notes, will not be subject to any sinking fund.

S-13

REPAYMENT AT THE NOTEHOLDERS' OPTION; REPURCHASE

If applicable, the Pricing Supplement relating to each Note will indicate that the Note will be repayable at the option of the Holder on a date or dates specified prior to its Stated Maturity and, unless otherwise specified in such Pricing Supplement, at a price equal to 100% of the principal amount thereof,

together with accrued interest to the date of repayment, unless such Note was issued with original issue discount, in which case the Pricing Supplement will specify the amount payable upon such repayment.

In order for such a Note to be repaid, the Trustee must receive not less than 15 nor more than 30 days prior to the repayment date (i) the Note with the form entitled "Option to Elect Repayment" on the reverse of the Note duly completed or (ii) a telegram, telex, facsimile transmission or a letter from a member of a national securities exchange, or the National Association of Securities Dealers, Inc. (the "NASD") or a commercial bank or trust company in the United States setting forth the name of the Holder of the Note, the principal amount of the Note, the principal amount of the Note to be repaid, the certificate number or a description of the tenor and terms of the Note, a statement that the option to elect repayment is being exercised thereby and a guarantee that the Note to be repaid, together with the duly completed form entitled "Option to Elect Repayment" on the reverse of the Note, will be received by the Trustee not later than the fifth Business Day after the date of such telegram, telex, facsimile transmission or letter, provided, however, that such telegram, telex, facsimile transmission or letter shall only be effective if such Note and form duly completed are received by the Trustee by such fifth Business Day. Unless otherwise specified in the applicable Pricing Supplement, exercise of the repayment option by the Holder of a Note will be irrevocable. The repayment option may be exercised by the Holder of a Note for less than the entire principal amount of the Note but, in that event, the principal amount of the Note remaining outstanding after repayment must be an Authorized Denomination.

If a Note is represented by a Global Security, the Depositary's nominee will be the Holder of such Note and therefore will be the only entity that can exercise a right to repayment. In order to ensure that the Depositary's nominee will timely exercise a right to repayment with respect to a particular Note, the Beneficial Owner of such Note must instruct the broker or other Direct or Indirect Participant through which it holds an interest in such Note to notify the Depositary of its desire to exercise a right to repayment. Different firms have different deadlines for accepting instructions from their customers and, accordingly, each Beneficial Owner should consult the broker or other Direct or Indirect Participant through which it holds an interest in a Note in order to ascertain the deadline by which such an instruction must be given in order for timely notice to be delivered to the Depositary.

The Company may purchase Notes at any price in the open market or otherwise. Notes so purchased by the Company may, at the discretion of the Company, be held or resold or surrendered to the Trustee for cancellation.

CERTAIN UNITED STATES FEDERAL INCOME TAX CONSEQUENCES

The following is a summary of certain United States federal income tax consequences of the ownership of Notes as of the date hereof. This summary is based on the Internal Revenue Code of 1986 (the "Code") as well as final, temporary and proposed Treasury regulations and administrative and judicial decisions. Legislative, judicial and administrative changes may occur, possibly with retroactive effect, that could affect the accuracy of the statements set forth herein. This summary does not purport to address all federal income tax matters that may be relevant to particular purchasers of Notes. For example, it generally is addressed only to original purchasers of the Notes, deals only with Notes held as capital assets within the meaning of Section 1221 of the Code, and does not address tax consequences of holding Notes that may be relevant to investors in special tax situations, such as banks, insurance companies, tax-exempt organizations, dealers in securities or currencies, Notes held as a hedge or as part of a hedging, straddle or conversion transaction, or holders whose "functional currency" (as defined in Code section 985) is not the United States dollar. In the event the Company intends to issue Indexed Notes, the applicable Pricing Supplement will describe relevant federal income tax consequences. Persons considering the purchase of Notes should consult their own tax advisors concerning the application of United States federal income tax laws, as well as any state, local, foreign

S-14

or other tax laws, to their particular situations. Additional United States federal income tax consequences applicable to particular Notes may be set forth in the applicable Pricing Supplement.

PAYMENT OF INTEREST

Except as set forth below, interest on a Note will be taxable to a holder as ordinary interest income at the time it accrues or is received, in accordance with the holder's method of accounting for tax purposes. Special rules governing the treatment of Notes issued at an original issue discount are described under "Original Issue Discount" below.

ORIGINAL ISSUE DISCOUNT

The following is a summary of the principal federal income tax consequences of the ownership of Notes issued at an original issue discount. It is based in part upon the rules governing original issue discount that are set forth in Code sections 1271 through 1275 and in Treasury regulations thereunder (the "OID Regulations"). On December 15, 1994, the Internal Revenue Service ("IRS") issued proposed Treasury regulations relating to contingent payment debt instruments, which also contained proposed amendments to the OID Regulations with regard to variable rate debt instruments (the "Proposed Regulations"). In general, the Proposed Regulations are proposed to be effective for debt instruments issued on or after the date that is 60 days after final regulations are published. The following summary does not discuss the application of the Proposed Regulations to, or address the federal income tax consequences of, an investment in contingent payment debt instruments. In the event the Company issues contingent payment debt instruments, such as Indexed Notes, the applicable Pricing Supplement will describe the material federal income tax consequences thereof.

A Note which has an "issue price" of less than its "stated redemption price at maturity" generally will be issued at an original issue discount for federal income tax purposes. The issue price of a Note generally is the first price at which a substantial amount of the issue of Notes is sold to the public (excluding bond houses, brokers, or similar persons acting in the capacity of underwriters or wholesalers). The "stated redemption price at maturity" is the total amount of all payments provided by the Note other than "qualified stated interest" payments; qualified stated interest generally is stated interest that is unconditionally payable at least annually either at a single fixed rate, or, to the extent described below, at a "qualifying variable rate." Qualified stated interest will be taxable to a holder when accrued or received in accordance with such holder's method of tax accounting. A Note generally will be considered to have de minimis original issue discount if the excess of its stated redemption price at maturity over its issue price is less than the product of 0.25 percent of the stated redemption price at maturity and the number of complete years to maturity (or the "weighted average maturity" in the case of a Note that provides for payment of an amount other than qualified stated interest before maturity). Holders of Notes having de minimis original issue discount generally must include a proportionate amount of the de minimis original issue discount in income as each payment of stated principal is made as a payment received in retirement of the Note.

Holders of Notes issued at an original issue discount that is not de minimis original issue discount and that mature more than one year from the date of issuance will be required to include such original issue discount in gross income for federal income tax purposes as it accrues, in advance of receipt of the cash attributable to such income. Original issue discount accrues based on a compounded, constant yield to maturity; accordingly, holders of Notes issued at an original issue discount generally will be required to include in income increasingly greater amounts of original issue discount in successive accrual periods. The annual amount of original issue discount includible in income by the initial holder of a Note issued at an original issue discount will equal the sum of the daily portions of the original issue discount with respect to the Note for each day on which such holder held the Note during the taxable year. Generally, the daily portions of the original issue discount are determined by allocating to each day in an accrual period the ratable portion of the original issue discount allocable to such accrual period. The term "accrual period" means any interval of time with respect to which the accrual of original issue discount is measured, and which may vary in length over the term of the Note provided that each accrual period is no longer than one year and each scheduled payment of principal or interest occurs at the beginning or end of an accrual period. The amount of original issue discount

allocable to an accrual period will be the excess of (a) the product of the "adjusted issue price" of the Note at the commencement of such accrual period

and its "yield to maturity" over (b) the amount of any qualified stated interest payments allocable to the accrual period. The "adjusted issue price" of the Note at the beginning of the first accrual period is its issue price, and, on any day thereafter, it is the sum of the issue price and the amount of the original issue discount previously includible in the gross income of any holder (without regard to any acquisition premium), reduced by the amount of any payment other than a payment of qualified stated interest previously made with respect to the Note. The OID Regulations provide a special rule for determining the original issue discount allocable to an accrual period if an interval between payments of qualified stated interest contains more than one accrual period. The "yield to maturity" of the Note is computed on the basis of a constant interest rate, compounding at the end of each accrual period, taking into account the length of the particular accrual period. If all accrual periods are of equal length except for an initial or an initial and final shorter accrual period(s), the amount of original issue discount allocable to the initial period may be computed using any reasonable method; the original issue discount allocable to the final accrual period is in any event the difference between the amount payable at maturity (other than a payment of qualified stated interest) and the adjusted issue price at the beginning of the final accrual period.

For purposes of calculating the yield and maturity of a Note subject to an issuer or holder right to accelerate principal repayment (respectively, a "call option" or "put option"), such call option or put option is presumed exercised if the yield on the Note would be less or more, respectively, than it would be if the option were not exercised. The effect of this rule generally may be to accelerate or defer the inclusion of original issue discount in the income of a holder whose Note is subject to a put option or a call option, as compared to a Note that does not have such an option. If any such option presumed to be exercised is not in fact exercised, the Note is treated as reissued on the date of presumed exercise for an amount equal to its adjusted issue price on that date for purposes of redetermining such Note's yield and maturity and any related subsequent accruals of original issue discount. Purchasers of Notes with such features should carefully review the applicable Pricing Supplement and should consult their own tax advisors with respect to the consequences of a Note having such an option.

Special considerations relate to the calculation of interest income and original issue discount with respect to Floating Rate Notes. Such notes generally will bear interest at a "qualified floating rate" and thus will be treated as "variable rate debt instruments" under the OID Regulations. Such Notes will be treated as described in the following paragraph. Floating Rate Notes that are not treated as variable rate debt instruments or that have an issue price that exceeds the total noncontingent principal payments by more than a specified minimum amount will be treated as contingent payment debt instruments. The Pricing Supplement applicable to any such debt instrument will describe the material federal income tax consequences of the ownership of such instrument.

If a Note qualifies as a variable rate debt instrument, the OID Regulations specify rules for determining the amount of qualified stated interest and the amount and accrual of any original issue discount. If the Note bears interest that is unconditionally payable at least annually at a single qualified floating rate or objective rate, all stated interest is treated as qualified stated interest. The accrual of any original issue discount is determined by assuming the Note bears interest at a fixed interest rate equal to the issue date value of the qualified floating rate or qualified inverse floating rate, or equal to the reasonably expected yield for the Note in the case of any other objective rate. The Proposed Regulations clarify that the qualified stated interest allocable to an accrual period is increased (or decreased) if the interest actually paid during an accrual period exceeds (or is less than) the interest assumed to be paid during the accrual period; such clarification is proposed to be effective for debt instruments issued on or after April 4, 1994. If the Note bears interest at a rate that is not a single qualified floating rate or objective rate, the amount of interest and accruals of original issue discount generally are determined by (i) determining a fixed rate substitute for each variable rate as described above, (ii) determining the amount of qualified stated interest and original issue discount by assuming the Note bears interest at such substitute fixed rates, and (iii) making appropriate adjustments to the qualified stated interest and original issue discount so determined for actual interest paid under the Note. However, if such qualifying variable rate includes a fixed rate, the Note first is treated for purposes of applying clause (i) of the preceding sentence as if it provided for an assumed qualified floating rate (or qualified inverse

floating rate if the actual variable rate is such) in lieu of the fixed rate; the assumed variable rate would be a rate that would cause the Note to have approximately the same fair market value.

In general, an individual or other cash method holder of a Note that matures one year or less from the date of its issuance (a "Short-term Note") is not required to accrue original issue discount for federal income tax purposes unless it elects to do so. Holders who report income for federal income tax purposes on the accrual method and certain other holders, including banks, regulated investment companies and dealers in securities, are required to include original issue discount on such Notes on a straight-line basis, unless an election is made to accrue the original issue discount according to a constant yield method based on daily compounding. In the case of a holder who is not required and does not elect to include original issue discount in income currently, any gain realized on the sale, exchange or retirement of such a Note will be ordinary income to the extent of the original issue discount accrued on a straight-line basis (or, if elected, according to a constant yield method based on daily compounding) through the date of sale, exchange or retirement. In addition, such non-electing holders who are not subject to the current inclusion requirement described in this paragraph will be required to defer deductions for any interest paid on indebtedness incurred or continued to purchase or carry such Notes in an amount not exceeding the deferred interest income, until such deferred interest income is realized. As described elsewhere herein, certain of the Notes may be subject to special put, call, and renewal options. These options may affect the determination of whether a Note has a maturity of not more than one year and thus is a Short-term Note. Purchasers of Notes with such options should carefully review the applicable Pricing Supplement and should consult their own tax advisors with respect to such features.

RENEWABLE AND EXTENDIBLE NOTES

A holder of a Note with a Stated Maturity that may be extended at the option of the holder (a "Renewable Note"), or at the option of the Company (an "Extendible Note"), will determine yield and maturity of the Note depending upon whether the option to extend is treated as exercised. The option to extend shall be treated as exercised if the resulting yield would be greater than (in the case of a Renewable Note), or equal to or less than (in the case of an Extendible Note), it would be if the option to extend were not exercised. Correspondingly, the option to extend shall be treated as not exercised if the resulting yield would be equal to or less than (in the case of a Renewable Note), or greater than (in the case of an Extendible Note), it would be if the option to extend were exercised. A Renewable or an Extendible Note will not be considered to have original issue discount if the difference between the Note's stated redemption price at maturity determined under the foregoing rules and its issue price is less than 0.25% of the stated redemption price at maturity as so determined multiplied by the number of complete years to the Note's Stated Maturity (or, the weighted average maturity, if applicable).

In addition, there is a possibility that if the Stated Maturity of a Renewable or an Extendible Note is extended the holder may be treated for federal income tax purposes as having exchanged such Note (the "Old Note") for a new Note with revised terms (the "New Note"). If the holder is treated as having exchanged the Old Note for the New Note, such exchange may be treated as either a taxable exchange or a tax-free recapitalization, possibly on the day of the agreement to exercise the option even though the extension may not be immediately effective, with differing consequences under the original issue discount rules. On the other hand, if the holder is not treated as exchanging the Old Note for the New Note, no gain or loss will be recognized as a result thereof. Holders of Notes should consult their own tax advisors regarding the tax consequences of holding and disposing of the Renewable or Extendible Notes, including the decision whether to elect to extend the Stated Maturity.

MARKET DISCOUNT AND PREMIUM

If a holder purchases a Note (other than a Short-term Note) for an amount that is less than the Note's stated redemption price at maturity, or, in the case of a Note issued at an original issue discount, less than its adjusted issue price (as defined above) as of the date of purchase, the amount of the difference generally will be treated as "market discount" for federal income tax purposes. A Note acquired at its original issue will not have market discount unless the Note is purchased at less than its issue price. Market discount generally will

be de minimis and hence disregarded, however, if it is less than the product of 0.25 percent of the stated redemption price at maturity of the Note and the number of remaining complete years to maturity (or weighted average maturity in the case of Notes paying any amount other than qualified stated interest prior to maturity). Under the market discount rules, a holder is required to treat any principal payment on, or any gain on the sale, exchange, retirement or other disposition of, a Note as ordinary income to the extent of any accrued market discount which has not previously been included in income. If such Note is disposed of in a nontaxable transaction (other than certain specified nonrecognition transactions), accrued market discount will be includible as ordinary income to the holder as if such holder had sold the Note at its then fair market value. In addition, the holder may be required to defer, until the maturity of the Note or its earlier disposition in a taxable transaction, the deduction of all or a portion of the interest expense on any indebtedness incurred or continued to purchase or carry such Note.

Market discount is considered to accrue ratably during the period from the date of acquisition to the maturity of a Note, unless the holder elects to accrue on a constant yield basis. A holder of a Note may elect to include market discount in income currently as it accrues (on either a ratable or constant yield basis), in which case the rule described above regarding deferral of interest deductions will not apply. This election to include market discount currently applies to all market discount obligations acquired during or after the first taxable year to which the election applies, and may not be revoked without the consent of the IRS.

A holder who purchases a Note issued at an original issue discount for an amount exceeding its adjusted issue price (as defined above) and less than or equal to the sum of all amounts payable on the Note after the purchase date other than payments of qualified stated interest will be considered to have purchased such Note with "acquisition premium." The amount of original issue discount which such holder must include in gross income with respect to such Note will be reduced in the proportion that such excess bears to the original issue discount remaining to be accrued as of the Note's acquisition.

A holder who acquires a Note for an amount that is greater than the sum of all amounts payable on the Note after the purchase date other than payments of qualified stated interest will be considered to have purchased such Note at a premium, and will not be required to include any original issue discount in income. A holder generally may elect to amortize such premium using a constant yield method over the remaining term of the Note and offset such amortizable premium against interest income on the Note. Any such election shall apply to all debt instruments (other than debt instruments the interest on which is excludable from gross income) held at the beginning of the first taxable year to which the election applies or thereafter acquired, and is irrevocable without consent of the IRS. Special rules may apply if a Note is subject to call prior to maturity at a price in excess of its stated redemption price at maturity.

CONSTANT YIELD ELECTION

A holder of a Note may elect to include in income all interest, discount and premium with respect to such Note based on a constant yield method, as described above. The election is made for the taxable year in which the holder acquires the Note, and it may not be revoked without the consent of the IRS. If such election is made with respect to a Note having market discount, such holder will be deemed to have elected to include market discount in gross income currently on a constant yield basis with respect to all debt instruments having market discount acquired during the year of election or thereafter. If made with respect to a Note having amortizable bond premium, such holder will be deemed to have made an election to amortize premium generally with respect to all debt instruments having amortizable bond premium held by the taxpayer during the year of election or thereafter.

SALE AND RETIREMENT OF THE NOTES

Upon the sale, exchange or retirement of a Note, a holder will recognize taxable gain or loss equal to the difference between the amount realized from the sale, exchange or retirement (less any accrued qualified stated interest which will be taxable as such) and the holder's adjusted tax basis in the Note. Such gain or loss generally will be capital gain or loss, except to the extent of any accrued market discount (see "Market Discount and Premium" above), and

such capital gain or loss will generally be long term capital gain or loss if

S-18

19

the Note has been held for more than one year. A holder's adjusted tax basis in a Note will equal the cost of the Note, increased by any original issue discount or market discount previously includible in taxable income by the holder with respect to such Note, and reduced by any amortizable bond premium applied to reduce interest on a Note, any principal payments received by the holder, and in the case of Notes issued at an original issue discount, any other payments not constituting qualified stated interest (as defined above).

The Code provides preferential treatment under certain circumstances for net long-term capital gains realized by individual investors. The ability of United States holders to offset capital losses against ordinary income is limited. Special rules regarding the treatment of gain realized with respect to Short-term Notes issued at an original issue discount are described under "Original Issue Discount" above.

BACKUP WITHHOLDING AND INFORMATION REPORTING

A 31 percent "backup" withholding tax and certain information reporting requirements may apply to payments of principal, premium and interest (including any original issue discount) made to, and the proceeds of disposition of a Note by, certain holders. Backup withholding will apply only if (i) the holder fails to furnish its Taxpayer Identification Number ("TIN") to the payor, (ii) the IRS notifies the payor that the holder has furnished an incorrect TIN, (iii) the IRS notifies the payor that the holder has failed to report properly payments of interest and dividends or (iv) under certain circumstances, the holder fails to certify, under penalty of perjury, that it has both furnished a correct TIN and not been notified by the IRS that it is subject to backup withholding for failure to report interest and dividend payments. Backup withholding will not apply with respect to payments made to certain exempt recipients, such as corporations and financial institutions. Holders should consult their tax advisors regarding their qualification for exemption from backup withholding and the procedure for obtaining such an exemption.

The amount of any backup withholding from a payment to a holder will be allowed as a credit against such holder's federal income tax liability and may entitle such holder to a refund, provided that the required information is furnished to the IRS.

NON-UNITED STATES HOLDERS

A "non-United States Holder" is any person other than (i) a citizen or resident of the United States, (ii) a corporation or partnership organized in or under the laws of the United States, any state thereof or the District of Columbia, or (iii) an estate or trust the income of which is includible in gross income for United States federal income tax purposes regardless of its source. A non-United States Holder generally will not be subject to United States federal withholding tax with respect to payments of interest on Notes, provided that (1) such holder does not actually or constructively own 10 percent or more of the total combined voting power of all classes of stock of the Company entitled to vote, (2) such holder is not for United States federal income tax purposes a controlled foreign corporation related to the Company through stock ownership, (3) the beneficial owner of the Note certifies under penalties of perjury as to its status as a non-United States Holder and complies with applicable identification procedures, and (4) such payment is not a payment of "contingent interest" described in Code section 871(h)(4). The applicable Pricing Supplement will indicate if a Note is described in section 871(h)(4). In certain circumstances, the above-described certification can be provided by a bank or other financial institution. If the requirements listed above are not met, a non-United States Holder may be subject to withholding at a rate of 30 percent, or the lower treaty rate, whichever is applicable, or possibly to backup withholding at a rate of 31 percent. Regardless of whether a non-United States Holder is subject to withholding, information reporting is required.

In addition, a non-United States Holder of a Note generally will not be subject to United States federal income tax on any gain realized upon the sale, retirement or other disposition of a Note, unless such holder is an individual who is present in the United States for 183 days or more during the taxable year of such sale, retirement or other disposition and certain other conditions are met. If a non-United States Holder of a Note is engaged in a trade or business

in the United States and income or gain from the Note is effectively connected with the conduct of such trade or business, the non-United States Holder will be exempt from withholding tax if appropriate certification has been provided, but will generally be subject to regular United

S-19

20

States income tax on such income and gain in the same manner as if it were a United States holder. In addition, if such non-United States Holder is a foreign corporation, it may be subject to a branch profits tax equal to 30 percent of its effectively connected earnings and profits for the taxable year, subject to adjustments.

Backup withholding will not apply to payments of principal, premium, if any, and interest made to a non-United States Holder by the Company on a Note with respect to which the holder has provided the required certification under penalties of perjury of its non-United States Holder status or has otherwise established an exemption, provided in each case that the Company or its paying agent, as the case may be, does not have actual knowledge that the payee is a United States person. Payments on the sale, exchange or other disposition of a Note by a non-United States Holder to or through a foreign office of a broker will not be subject to backup withholding. However, if such broker is a United States person, a controlled foreign corporation for United States tax purposes or a foreign person 50 percent or more of whose gross income is derived from its conduct of a United States trade or business for a specified three-year period, information reporting will be required unless the broker has in its records documentary evidence that the beneficial owner is not a United States person and certain other conditions are met or the beneficial owner otherwise establishes an exemption. Payments to or through the United States office of a broker will be subject to backup withholding and information reporting unless the holder certifies under penalties of perjury to its non-United States Holder status or otherwise establishes an exemption.

Non-United States Holders should consult their tax advisors regarding the application of United States federal income tax laws, including information reporting and backup withholding, to their particular situations.

PLAN OF DISTRIBUTION

The Notes are being offered on a continuing basis by the Company through the Agents, who have agreed to use reasonable efforts to solicit offers to purchase Notes. The Company will have the sole right to accept offers to purchase Notes and may reject any offer to purchase Notes in whole or in part. An Agent will have the right to reject any offer to purchase Notes solicited by it in whole or in part. Payment of the purchase price of the Notes will be required to be made in immediately available funds. The Company will pay an Agent, in connection with sales of Notes resulting from a solicitation made or an offer to purchase received by such Agent, a commission ranging from .125% to .750% of the principal amount of Notes to be sold.

The Company may also sell Notes to an Agent as principal for its own account at discounts to be agreed upon at the time of sale. Such Notes may be resold to investors and other purchasers at prevailing market prices, or prices related thereto at the time of such resale, as determined by the Agent or, if so agreed, at a fixed public offering price. In addition, the Agents may offer the Notes they have purchased as principal to other dealers. The Agents may sell Notes to any dealer at a discount and, unless otherwise specified in the applicable Pricing Supplement, such discount allowed to any dealer will not be in excess of the discount to be received by such Agent from the Company. After the initial public offering of Notes to be resold to investors and other purchasers, the public offering price (in the case of Notes to be resold at a fixed public offering price) concession and discount may be changed.

The Company may accept (but not solicit) offers to purchase Notes through additional agents and may appoint additional agents for the purpose of soliciting offers to purchase Notes, in either case on terms substantially identical to the terms contained in the Distribution Agreement. Such other agents may also purchase Notes as principal for resale as described above. Such other agents, if any, will be named in the applicable Pricing Supplement.

An Agent may be deemed to be an "underwriter" within the meaning of the Securities Act of 1933 (the "Securities Act"). The Company and the Agents have agreed to indemnify each other against certain liabilities, including

liabilities under the Securities Act, or to contribute to payments made in respect thereof. The Company has also agreed to reimburse the Agents for certain expenses.

The Company does not intend to apply for the listing of the Notes on a national securities exchange. The Company has been advised by the Agents that the Agents intend to make a market in the Notes, as permitted

S-20

21

by applicable laws and regulations. The Agents are not obligated to do so, however, and the Agents may discontinue making a market at any time without notice. No assurance can be given as to the liquidity of any trading market for the Notes.

The Agents and/or certain of their affiliates may engage in transactions with and perform services for the Company and certain of its affiliates in the ordinary course of business.

VALIDITY OF NOTES

The validity of the Notes will be passed upon for the Company by Orrick, Herrington & Sutcliffe, San Francisco, California, counsel for the Company, and for the Agents by Wilson, Sonsini, Goodrich & Rosati, Professional Corporation, Palo Alto, California.

The opinions of counsel will be conditioned upon, and subject to certain assumptions regarding, future actions required to be taken by the Company in connection with the issuance and sale of any particular Note, the specific terms of Notes and other matters which may affect the validity of the Notes but which cannot be ascertained on the date of such opinions.

PROSPECTUS

(LOGO - Applied Materials, Inc.)

DEBT SECURITIES AND COMMON STOCK

Applied Materials, Inc. ("Applied Materials" or the "Company") from time to time may offer its debt securities consisting of senior debentures, notes, bonds and/or other evidences of indebtedness in one or more series ("Debt Securities") and shares of Common Stock, \$.01 par value, of the Company ("Common Stock") with an aggregate initial public offering price of up to \$600,000,000 or the equivalent thereof in one or more foreign currencies or composite currencies, including European Currency Units ("ECU"). The Debt Securities and the Common Stock (collectively, the "Securities") may be offered, separately or together, in separate series in amounts, at prices, and on terms to be set forth in a supplement to this Prospectus (a "Prospectus Supplement").

The Securities may be sold for U.S. Dollars, one or more foreign currencies or amounts determined by reference to an index and the principal of and any interest on the Debt Securities may likewise be payable in U.S. Dollars, one or more foreign currencies or amounts determined by reference to an index.

The Debt Securities will rank equally with all other unsubordinated and unsecured indebtedness of the Company. See "Description of Debt Securities."

The specific terms of the Securities in respect of which this Prospectus is being delivered, such as where applicable, (i) in the case of Debt Securities, the specific designation, aggregate principal amount, currency, denomination, maturity, premium, rate (or manner of calculation thereof) and time of payment of interest, terms for redemption at the option of the Company or the holder or for sinking fund payments, and the initial public offering price and (ii) in the case of Common Stock, the number of shares and the initial public offering price

or method of determining the initial public offering price, will be set forth in an accompanying Prospectus Supplement. See "Description of Debt Securities" and "Description of Capital Stock."

The Securities may be sold through underwriting syndicates led by one or more managing underwriters or through one or more underwriters acting alone. The Securities may also be sold directly by the Company or through agents designated from time to time. If any underwriters or agents are involved in the sale of the Securities, their names, the principal amount of Securities to be purchased by them and any applicable fee, commission or discount arrangements with them will be set forth in the Prospectus Supplement. See "Plan of Distribution."

THESE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE SECURITIES AND EXCHANGE COMMISSION OR ANY STATE SECURITIES COMMISSION NOR HAS THE SECURITIES AND EXCHANGE COMMISSION OR ANY STATE SECURITIES COMMISSION PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

This Prospectus may not be used to consummate sales of Securities unless accompanied by a Prospectus Supplement.

THE DATE OF THIS PROSPECTUS IS JUNE 28, 1995.

24

AVAILABLE INFORMATION

The Company is subject to the informational requirements of the Securities Exchange Act of 1934, as amended (the "Exchange Act") and in accordance therewith files reports, proxy statements and other information with the Securities and Exchange Commission (the "Commission"). Such reports, proxy statements and other information filed by the Company can be inspected and copied at the public reference facilities maintained by the Commission at Judiciary Plaza, 450 Fifth Street, N.W., Room 1024, Washington D.C. 20549, and at Regional Offices of the Commission located at Northwestern Atrium Center, 500 West Madison Street, Suite 1400, Chicago, Illinois 60661 and at Seven World Trade Center, 13th Floor, New York, New York 10048. Copies of such material can be obtained from the Public Reference Section of the Commission at 450 Fifth Street, N.W., Washington D.C. 20549, at prescribed rates. Such reports, proxy statements and other information may also be inspected at the offices of the National Association of Securities Dealers, Inc., 1735 K Street, N.W., Washington D.C. 20006.

This Prospectus does not contain all the information set forth in the Registration Statement on Form S-3 (the "Registration Statement") of which this Prospectus is a part, including exhibits relating thereto, which has been filed with the Commission in Washington, D.C. Statements made in this Prospectus as to the contents of any referenced contract, agreement or other document are not necessarily complete, and each such statement shall be deemed qualified in its entirety by reference thereto. Copies of the Registration Statement and the exhibits and schedules thereto may be obtained, upon payment of the fee prescribed by the Commission, or may be examined without charge, at the office of the Commission.

INFORMATION INCORPORATED BY REFERENCE

The following documents have been filed with the Commission and are incorporated herein by reference:

(a) The Company's Annual Report on Form 10-K for the fiscal year ended October 30, 1994 (which incorporates by reference portions of the Company's definitive Proxy Statement dated January 31, 1995 for the Company's Annual Meeting of Stockholders held on March 14, 1995 and portions of its 1994 Annual Report to Stockholders for the year ended October 30, 1994);

(b) The Company's Quarterly Reports on Form 10-Q for the quarters ended January 29, 1995 and April 30, 1995; and

(c) The description of the Company's Common Stock and Common Stock Purchase Rights contained in its Registration Statement on Form 8-A, filed on April 5, 1994.

All documents filed by the Company pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act after the date of this Prospectus and prior to the termination of the offering of the Securities offered hereby shall be deemed to be incorporated by reference in this Prospectus.

Any statement contained in a document incorporated or deemed to be incorporated by reference herein shall be deemed to be modified or superseded for purposes of the Registration Statement or this Prospectus to the extent that a statement contained herein, in a Prospectus Supplement or in any other document subsequently filed with the Commission which also is or is deemed to be incorporated by reference herein modifies or supersedes such statement. Any such statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of the Registration Statement or this Prospectus.

The Company will furnish without charge to each person, including any beneficial owner, to whom this Prospectus is delivered, on the written or oral request of such person, a copy of any or all of the documents incorporated by reference, other than exhibits to such documents. Requests should be directed to Director, Investor Relations, Applied Materials, Inc., 3050 Bowers Avenue, Santa Clara, California 95054-3299; telephone number (408) 727-5555.

2

25

THE COMPANY

Applied Materials, Inc. ("Applied Materials" or the "Company") develops, manufactures, markets and services semiconductor wafer fabrication equipment and related spare parts for the worldwide semiconductor industry. The Company's customers include both companies which manufacture semiconductor devices for use in their own products and companies which manufacture semiconductor devices for sale to others. The Company operates exclusively in the semiconductor wafer fabrication equipment industry. The Company is also a fifty percent stockholder in Applied Komatsu Technology, Inc., which produces thin film transistor fabrication systems for flat panel displays.

Applied Materials' products are sophisticated systems requiring state-of-the-art technology in wafer processing chemistry and physics, particulate management, process control, software and automation. Many of these technologies are complementary and can be applied across all of the Company's products. The Company's products provide enabling technology, productivity and yield enhancements to semiconductor manufacturers. The Company's products are used to fabricate semiconductor devices on a substrate of semiconductor material (primarily silicon). A finished device consists of thin film layers which can form anywhere from one to millions of tiny electronic components that combine to perform desired electrical functions. The fabrication process must control film and feature quality to ensure proper device performance while meeting yield and throughput goals. The Company currently manufactures equipment that addresses three major steps in wafer fabrication: deposition, etch and ion implantation.

The Company was incorporated in California in 1967 and reincorporated in Delaware in 1987. Its principal executive offices are located at 3050 Bowers Avenue, Santa Clara, California 95054-3299 (telephone number (408) 727-5555). References to the Company or to Applied Materials shall mean Applied Materials, Inc. and its consolidated subsidiaries, unless the context requires otherwise.

USE OF PROCEEDS

The net proceeds to be received by the Company from the sale of the Securities will be used for general corporate purposes, including increases in working capital and expansion of facilities. The Company believes that success in its industry requires substantial financial strength and flexibility. In addition, the Company from time to time considers acquisitions of complementary businesses, assets or technologies, and although there are no current agreements or understandings with respect to any such acquisition, the Company desires to be able to respond to opportunities as they arise. The Company is not negotiating, discussing or planning any potential acquisition at this time. Pending such uses, the Company will invest the net proceeds in investment-grade, interest-bearing securities.

RATIO OF EARNINGS TO FIXED CHARGES

Set forth below is the ratio of earnings to fixed charges for each of the

years in the five-year period ended October 30, 1994, and for the six months ended April 30, 1995 and May 1, 1994. For the purpose of calculating the ratio of earnings to fixed charges, (i) earnings consists of income before taxes and cumulative effect of accounting change plus fixed charges and (ii) fixed charges consists of interest expense incurred, amortization of debt issuance expense and the portion of rental expense under operating leases deemed by the Company to be representative of the interest factor.

	SIX MONTHS ENDED		FISCAL YEAR ENDED				
	APRIL 30, 1995	MAY 1, 1994	1994	1993	1992	1991	1990

26

DESCRIPTION OF DEBT SECURITIES

The following statements with respect to the Debt Securities are summaries of, and subject to, the detailed provisions of an indenture (the "Indenture") entered into by the Company and Harris Trust Company of California, as trustee (the "Trustee"), a copy of which is filed as an exhibit to the Registration Statement. The following summaries of certain provisions of the Indenture do not purport to be complete and are subject to, and are qualified in their entirety by reference to, all of the provisions of the Indenture, including the definitions therein of certain terms. Wherever particular Sections or defined terms of the Indenture are referred to herein or in a Prospectus Supplement, such Sections or defined terms are incorporated herein or therein by reference. Section and Article references used herein are references to the Indenture.

The Debt Securities may be issued from time to time in one or more series. The particular terms of each series of Debt Securities offered by any Prospectus Supplement or Prospectus Supplements will be described in such Prospectus Supplement or Prospectus Supplements relating to such series.

GENERAL

The Indenture does not limit the aggregate amount of Debt Securities which may be issued thereunder and Debt Securities may be issued thereunder from time to time in separate series up to the aggregate amount from time to time authorized by the Company for each series. The Debt Securities will be senior unsecured obligations of the Company.

The applicable Prospectus Supplement or Prospectus Supplements will describe the following terms of the series of Debt Securities in respect of which this Prospectus is being delivered: (1) the title of the Debt Securities; (2) any limit on the aggregate principal amount of the Debt Securities; (3) the Person to whom any interest on a Debt Security shall be payable, if other than the person in whose name that Debt Security is registered on the Regular Record Date; (4) the date or dates on which the principal of the Debt Securities will be payable; (5) the rate or rates at which the Debt Securities will bear interest, if any, or the method by which such rate or rates are determined, the date or dates from which such interest will accrue, the Interest Payment Dates on which any such interest on the Debt Securities will be payable and the Regular Record Date for any interest payable on any Interest Payment Date, and the basis upon which interest will be calculated if other than that of a 360-day year of twelve 30-day months; (6) the place or places where the principal of and any premium and interest on the Debt Securities will be payable; (7) the period or periods within which, the price or prices at which, and the terms and conditions upon which the Debt Securities may be redeemed, in whole or in part, at the option of the Company; (8) the obligation of the Company, if any, to redeem or repurchase the Debt Securities pursuant to any sinking fund or analogous provisions or at the option of the Holders and the period or periods within which, the price or prices at which and the terms and conditions upon which such Debt Securities shall be redeemed or purchased, in whole or in part, pursuant to such obligation, and any provisions for the remarketing of such Debt

Securities; (9) the denominations in which any Debt Securities will be issuable, if other than denominations of \$1,000 and any integral multiple thereof; (10) the currency, currencies or currency units in which payment of principal of and any premium and interest on any Debt Securities shall be payable if other than United States dollars; (11) any index, formula or other method used to determine the amount of payments of principal of and any premium and interest on the Debt Securities; (12) if the principal of or any premium or interest on any Debt Securities is to be payable, at the election of the Company or the Holders, in one or more currencies or currency units other than that or those in which such Debt Securities are stated to be payable, the currency, currencies or currency units in which payment of the principal of and any premium and interest on such Debt Securities shall be payable, and the periods within which and the terms and conditions upon which such election is to be made; (13) if other than the principal amount thereof, the portion of the principal amount of the Debt Securities which will be payable upon declaration of the acceleration of the Maturity thereof; (14) the applicability of any provisions described under "Defeasance and Covenant Defeasance"; (15) whether any of the Debt Securities are to be issuable in permanent global form and, if so, the Depositary or Depositaries for such Global Security and the terms and conditions, if any, upon which interests in such Debt Securities in global form may be exchanged, in whole or in part, for the individual Debt Securities represented thereby; (16) the Security Registrar, if other than the

4

27

Trustee, and the entity who will be the Paying Agent; (17) any Events of Default, with respect to the Debt Securities of such series, if not otherwise set forth under "Events of Default"; (18) if other than the date of original issuance by the Company of such series of Debt Securities, such other date as is applicable to the Debt Securities of such series for purposes of the covenant described under "Covenants of the Company -- Restrictions on Funded Debt of Restricted Subsidiaries" below; and (19) any other terms of the Debt Securities not inconsistent with the provisions of the Indenture. (Section 301)

Debt Securities may be issued as Original Issue Discount Securities to be sold at a substantial discount from their principal amount. (Section 301) United States Federal income tax consequences and other special considerations applicable to any such Original Issue Discount Securities will be described in the Prospectus Supplement relating thereto.

If any of the Debt Securities are sold for any foreign currency or currency unit or if principal of, premium, if any, or interest, if any, on any of the Debt Securities is payable in any foreign currency or currency unit, the restrictions, elections, tax consequences, specific terms and other information with respect to such Debt Securities and such foreign currency or currency unit will be specified in the Prospectus Supplement relating thereto.

EXCHANGE, REGISTRATION, TRANSFER AND PAYMENT

Unless otherwise indicated in the applicable Prospectus Supplement, payment of principal, premium, if any, and interest, if any, on the Debt Securities will be payable, and the exchange of and the transfer of Debt Securities will be registrable, at the office or agency of the Company maintained for such purpose and at any other office or agency maintained for such purpose. (Sections 305 and 1002) Unless otherwise indicated in the applicable Prospectus Supplement, the Debt Securities will be issued in denominations of \$1,000 or integral multiples thereof. (Section 302) No service charge will be made for any registration of transfer or exchange of Debt Securities, but the Company may require payment of a sum sufficient to cover any tax or other governmental charge imposed in connection therewith. (Section 305)

All moneys paid by the Company to a Paying Agent for the payment of principal, premium, if any, or interest, if any, on any Debt Security which remain unclaimed for two years after such principal, premium, or interest has become due and payable may be repaid to the Company, and thereafter the Holder of such Debt Security may look only to the Company for payment thereof. (Section 1003)

In the event of any redemption, the Company shall not be required to (i) issue, register the transfer of or exchange Debt Securities of any series during a period beginning at the opening of business 15 days before the day of the mailing of a notice of redemption of Debt Securities of that series to be redeemed and ending at the close of business on the day of such mailing or (ii)

register the transfer of or exchange any Debt Security, or portion thereof, called for redemption, except the unredeemed portion of any Debt Security being redeemed in part. (Section 305)

GLOBAL SECURITIES

If any Debt Securities of a series are issuable as Global Securities, the applicable Prospectus Supplement will describe the circumstances, if any, under which beneficial owners of interests in any such Global Security may exchange such interests for Debt Securities of such series and of like tenor and principal amount of any authorized form and denomination. Principal of and any premium and interest on a Global Security will be payable in the manner described in the Prospectus Supplement relating thereto.

COVENANTS OF THE COMPANY

Except as set forth below or as otherwise provided in the applicable Prospectus Supplement with respect to any series of Debt Securities, the Company is not restricted by the Indenture from incurring, assuming or becoming liable for any type of debt or other obligations, from paying dividends or making distributions on its capital stock or purchasing or redeeming its capital stock. The Indenture does not require the maintenance of any financial ratios or specified levels of net worth or liquidity. In addition, the Indenture does not contain any

5

28

provision that would require the Company to repurchase or redeem or otherwise modify the terms of any of its Debt Securities upon a change in control or other events involving the Company which may adversely affect the creditworthiness of the Debt Securities.

Unless otherwise indicated in the applicable Prospectus Supplement, certain covenants contained in the Indenture which are summarized below will be applicable (unless waived or amended) to the series of Debt Securities to which such Prospectus Supplement relates so long as any of the Debt Securities of such series are outstanding.

Limitations on Liens. The Company covenants that it will not issue, incur, create, assume or guarantee, and will not permit any Restricted Subsidiary to issue, incur, create, assume or guarantee, any debt for borrowed money secured by a mortgage, security interest, pledge, lien, charge or other encumbrance ("mortgages") upon any Principal Property or Domestic Receivables or Inventory of the Company or any Restricted Subsidiary or upon any shares of stock or indebtedness of any Restricted Subsidiary (whether such Principal Property, or Domestic Receivables or Inventory, shares or indebtedness are now existing or owed or hereafter created or acquired) without in any such case effectively providing concurrently with the issuance, incurrence, creation, assumption or guaranty of any such secured debt that the Debt Securities (together with, if the Company shall so determine, any other indebtedness of or guarantee by the Company or such Restricted Subsidiary ranking equally with the Debt Securities) shall be secured equally and ratably with (or, at the option of the Company, prior to) such secured debt. The foregoing restriction, however, will not apply to: (a) mortgages on property, shares of stock or indebtedness or other assets of any corporation existing at the time such corporation becomes a Restricted Subsidiary, provided that such mortgages or liens are not incurred in anticipation of such corporation becoming a Restricted Subsidiary; (b) (i) mortgages on property, shares of stock, indebtedness or other assets existing at the time of acquisition thereof by the Company or a Restricted Subsidiary (which may include property previously leased by the Company and leasehold interests thereon, provided that the lease terminates prior to the acquisition) or mortgages thereon to secure the payment of all or any part of the purchase price thereof, or (ii) mortgages on property, shares of stock, indebtedness or other assets to secure any indebtedness for borrowed money incurred prior to, at the time of, or within 270 days after, the latest of the acquisition thereof, or, in the case of property, the completion of construction, the completion of improvements or the commencement of substantial commercial operation of such property for the purpose of financing all or any part of the purchase price thereof, such construction or the making of such improvements; (c) mortgages to secure indebtedness owing to the Company or to a Restricted Subsidiary; (d) mortgages existing at the date of the initial issuance of the Securities of such series; (e) mortgages on property or other assets of a corporation existing at the time such corporation is merged into or consolidated with the Company or a

Restricted Subsidiary or at the time of a sale, lease or other disposition of the properties of a corporation as an entirety or substantially as an entirety to the Company or a Restricted Subsidiary, provided that such mortgage was not incurred in anticipation of such merger or consolidation or sale, lease or other disposition; (f) mortgages in favor of the United States of America or any State, territory or possession thereof (or the District of Columbia), or any department, agency, instrumentality or political subdivision of the United States of America or any State, territory or possession thereof (or the District of Columbia), to secure partial, progress, advance or other payments pursuant to any contract or statute or to secure any indebtedness incurred for the purpose of financing all or any part of the purchase price or the cost of constructing or improving the property subject to such mortgages; or (g) extensions, renewals or replacements of any mortgage referred to in the foregoing clauses (a) through (f); provided, however, that any mortgages permitted by any of the foregoing clauses (a) through (f) shall not extend to or cover any property of the Company or such Restricted Subsidiary, as the case may be, other than the property specified in such clauses and improvements thereto. (Section 1008)

Notwithstanding the restrictions outlined in the preceding paragraph, the Company or any Restricted Subsidiary may issue, incur, create, assume or guarantee debt secured by a mortgage which would otherwise be subject to such restrictions, without equally and ratably securing the Debt Securities, provided that after giving effect thereto, the aggregate amount of all debt so secured by mortgages (not including mortgages permitted under clauses (a) through (g) above) does not exceed 5% of the Consolidated Net Tangible Assets of the Company. (Section 1008)

6

29

Limitations on Sale and Lease-Back Transactions. The Company covenants that it will not, nor will it permit any Restricted Subsidiary to, enter into any Sale and Lease-Back Transaction with respect to any Principal Property, other than any such transaction involving a lease for a term of not more than three years or any such transaction between the Company and a Restricted Subsidiary or between Restricted Subsidiaries, unless: (a) the Company or such Restricted Subsidiary would be entitled to incur indebtedness secured by a mortgage on the Principal Property involved in such transaction at least equal in amount to the Attributable Debt with respect to such sale and lease-back transaction, without equally and ratably securing the Debt Securities, pursuant to the limitation in the Indenture on liens; or (b) the Company shall apply an amount equal to the greater of the net proceeds of such sale or the Attributable Debt with respect to such sale and lease-back transaction within 180 days of such sale to either (or a combination of) (i) the retirement (other than any mandatory retirement, mandatory prepayment or sinking fund payment or by payment at maturity) of debt for borrowed money of the Company or a Restricted Subsidiary that matures more than twelve months after the creation of such indebtedness or (ii) the purchase, construction or development of other comparable property. (Section 1009)

Restrictions on Funded Debt of Restricted Subsidiaries. The Company covenants that it will not permit any Restricted Subsidiary to create, incur, issue, assume or guarantee any Funded Debt. The foregoing restriction, however, will not apply if: (a) the Company or such Restricted Subsidiary could create Debt secured by mortgages in accordance with the "Limitations on Liens" covenant described above or enter into a sale and lease-back transaction in accordance with the "Limitations on Sale and Lease-Back Transactions" covenant described above in an amount equal to such Funded Debt, without equally and ratably securing the Debt Securities; or (b) such Funded Debt existed on the date of the original issuance by the Company of the Debt Securities issued pursuant to the Indenture, or such other date as may be specified in the Prospectus Supplement; or (c) such Funded Debt is owed to the Company or any Subsidiary; or (d) such Funded Debt existed at the time the corporation that issued such Funded Debt became a Restricted Subsidiary, or was merged with or into or consolidated with such Restricted Subsidiary; or at the time of a sale, lease or other disposition of the properties of such corporation as an entirety to such Restricted Subsidiary, or arising thereafter (i) otherwise than in connection with the borrowing of money arranged thereafter and (ii) pursuant to contractual commitments entered into prior to and not in contemplation of such corporation becoming a Restricted Subsidiary and not in contemplation of such merger or consolidation or any such sale, lease or other disposition; or (e) such Funded Debt is issued, assumed or guaranteed in connection with, or with a view to, compliance by such Restricted Subsidiary with the requirements of any program adopted by any federal, state or local governmental authority and applicable to such Restricted Subsidiary and providing financial or tax benefits to such

Restricted Subsidiary which are not available directly to the Company; or (f) such Funded Debt is issued, assumed or guaranteed to pay all or any part of the purchase price or the construction cost of land, land improvements, buildings, fixtures and equipment acquired by a Restricted Subsidiary, provided such Funded Debt is incurred within 270 days after acquisition, completion of construction or commencement of full operation of such property, whichever is later; or (g) such Funded Debt is incurred for the purpose of extending, renewing, substituting, replacing or refunding Funded Debt permitted by the foregoing. (Section 1010)

Notwithstanding the foregoing, any Restricted Subsidiary may create, incur, issue, assume or guarantee Funded Debt which would otherwise be subject to the foregoing restrictions in an aggregate principal amount which, together with the aggregate outstanding principal amount of all other Funded Debt of the Company's Restricted Subsidiaries which would otherwise be subject to the foregoing restrictions (not including Funded Debt permitted to be incurred pursuant to clauses (a) through (g) above), does not at the time such Funded Debt is incurred exceed an amount equal to 5% of the Consolidated Net Tangible Assets. (Section 1010)

Certain Definitions Applicable to Covenants. The term "Attributable Debt" when used in connection with a Sale and Lease-Back Transaction involving a Principal Property shall mean, at the time of determination, the lesser of: (a) the fair value of such property (as determined in good faith by the Board of Directors of the Company); or (b) the present value of the total net amount of rent required to be paid under such lease during the remaining term thereof (including any renewal term or period for which such lease has been extended), discounted at the rate of interest set forth or implicit in the terms of such lease or, if not

7

30

practicable to determine such rate, the weighted average interest rate per annum borne by the Debt Securities of each series outstanding pursuant to the Indenture compounded semi-annually, in either case as determined in good faith by the principal accounting or financial officer of the Company. For purposes of the foregoing definition, rent shall not include amounts required to be paid by the lessee, whether or not designated as rent or additional rent, on account of or contingent upon maintenance and repairs, insurance, taxes, assessments, water rates and similar charges. In the case of any lease which is terminable by the lessee upon the payment of a penalty, such net amount shall be the lesser of the net amount determined assuming termination upon the first date such lease may be terminated (in which case the net amount shall also include the amount of the penalty, but no rent shall be considered as required to be paid under such lease subsequent to the first date upon which it may be so terminated) or the net amount determined assuming no such termination.

The term "Consolidated Net Tangible Assets" shall mean, as of any particular time, the aggregate amount of assets (less applicable reserves and other properly deductible items) after deducting therefrom: (a) all current liabilities, except for (1) notes and loans payable, (2) current maturities of long-term debt and (3) current maturities of obligations under capital leases; and (b) certain intangible assets, to the extent included in said aggregate amount of assets, all as set forth on the most recent consolidated balance sheet of the Company and its consolidated subsidiaries and computed in accordance with generally accepted accounting principles.

The term "Domestic Receivables or Inventory" shall mean accounts receivable arising from the sale of inventory or inventory owned by the Company or any Subsidiary whose principal place of business and place of incorporation is located in the United States of America. For purposes hereof, inventory and receivables shall be deemed to be "owned" if they are deemed to be assets of the Company or such Subsidiary for purposes of generally accepted accounting principles.

The term "Funded Debt" shall mean indebtedness created, assumed or guaranteed by a Person for money borrowed which matures by its terms, or is renewable by the Borrower to a date, more than one year after the date of original creation, assumption or guarantee.

The term "Principal Property" shall mean the land, land improvements, buildings and fixtures (to the extent they constitute real property interests) (including any leasehold interest therein) constituting the principal corporate

office, any manufacturing plant or any manufacturing facility (whether now owned or hereafter acquired) and the equipment located thereon which: (a) is owned by the Company or any Subsidiary; (b) is located within any of the present 50 States of the United States of America (or the District of Columbia); (c) has not been determined in good faith by the Board of Directors of the Company not to be materially important to the total business conducted by the Company and its Subsidiaries taken as a whole; and (d) has a book value on the date as of which the determination is being made in excess of 0.75% of Consolidated Net Tangible Assets of the Company as most recently determined on or prior to such date (including for purposes of such calculation the land, land improvements, buildings and such fixtures comprising such office, plant or facilities, as the case may be).

The term "Restricted Subsidiary" shall mean any Subsidiary which owns any Principal Property or Domestic Receivables or Inventory; provided, however, that the term "Restricted Subsidiary" shall not include any Subsidiary which is principally engaged in financing the Company's operations outside the United States of America; and provided, further, that the term "Restricted Subsidiary" shall not include any Subsidiary less than 80% of the voting stock of which is owned, directly or indirectly, by the Company or by one or more other Subsidiaries, or by the Company and one or more other Subsidiaries if the common stock of such Subsidiary is traded on any national securities exchange or quoted on the Nasdaq National Market or in the over-the-counter market.

The term "Sale and Lease-Back Transaction" shall mean any arrangement with any Person providing for the leasing by the Company or any Restricted Subsidiary of any Principal Property which property has been or is to be sold or transferred by the Company or such Restricted Subsidiary to such Person.

The term "Subsidiary" shall mean any corporation of which at least 66 2/3% of the outstanding stock having the voting power to elect a majority of the board of directors of such corporation is at the time owned,

8

31

directly or indirectly, by the Company or by one or more other Subsidiaries, or by the Company and one or more other Subsidiaries. For the purposes of this definition, "voting stock" means stock which ordinarily has voting power for the election of directors, whether at all times or only so long as no senior class of stock has such voting power by reason of any contingency.

DEFEASANCE AND COVENANT DEFEASANCE

The Indenture provides that, if such provision is made applicable to the Debt Securities of any series pursuant to the provisions of the Indenture, the Company may elect (i) to defease and be discharged from any and all obligations in respect of such Debt Securities except for the rights of holders to receive payments in respect of the principal of and any premium and interest on such Debt Securities and for certain obligations to register the transfer or exchange of such Debt Securities, to replace temporary, destroyed, stolen, lost or mutilated Debt Securities, to maintain paying agencies and to hold monies for payment in trust ("defeasance") or (ii) (A) to omit to comply with certain restrictive covenants in Sections 1005 through 1010 (including the covenants referred to above under "Covenants of the Company") and (B) to deem the occurrence of any event referred to in clauses (d) (with respect to Sections 1005 through 1010 inclusive) and (g) under "Events of Default" below not to be or result in an Event of Default if, in each case with respect to the Outstanding Debt Securities of such series as provided in Section 1303 on or after the date the conditions set forth in Section 1304 are satisfied ("covenant defeasance"), in either case upon the deposit with the Trustee (or other qualifying trustee), in trust, of money and/or U.S. Government Obligations, which through the payment of interest and principal in respect thereof in accordance with their terms will provide money in an amount sufficient to pay the principal of and any premium and interest on the Debt Securities of such series on the respective Stated Maturities and any mandatory sinking fund payments or analogous payments on the days payable, in accordance with the terms of the Indenture and the Debt Securities of such series. Such a trust may only be established if, among other things, the Company has delivered to the Trustee an Opinion of Counsel to the effect that the Holders of the Outstanding Debt Securities of such series will not recognize income, gain or loss for Federal income tax purposes as a result of such deposit, defeasance or covenant defeasance and will be subject to Federal income tax on the same amount, and in the same manner and at the same times as would

have been the case if such deposit, defeasance or covenant defeasance had not occurred. Such opinion, in the case of defeasance under clause (i) above, must refer to and be based upon a ruling of the Internal Revenue Service or a change in applicable Federal income tax laws occurring after the date of the Indenture. The Prospectus Supplement relating to a series may further describe the provisions, if any, permitting such defeasance or covenant defeasance with respect to the Debt Securities of a particular series. (Article Thirteen)

EVENTS OF DEFAULT

Any one of the following events will constitute an Event of Default under the Indenture with respect to Debt Securities of any series (unless such event is specifically inapplicable to a particular series as described in the Prospectus Supplement relating thereto): (a) failure to pay any interest on any Debt Security of that series when due, continued for 30 days; (b) failure to pay principal of or any premium on any Debt Security of that series when due; (c) failure to deposit any sinking fund payment, when due, in respect of any Debt Security of that series; (d) failure to perform any other covenant of the Company in the Indenture (other than a covenant included in the Indenture solely for the benefit of a series of Debt Securities other than that series), continued for 90 days after written notice as provided in the Indenture; (e) certain events in bankruptcy, insolvency or reorganization involving the Company; (f) (i) failure of the Company to make any payment at maturity, including any applicable grace period, in respect of indebtedness, which term as used in the Indenture means obligations (other than non-recourse obligations or the Debt Securities of such series) of the Company for borrowed money or evidenced by bonds, debentures, notes or similar instruments ("Indebtedness") in an amount in excess of \$10,000,000 and continuance of such failure or (ii) a default with respect to any Indebtedness, which default results in the acceleration of Indebtedness in an amount in excess of \$10,000,000 without such Indebtedness having been discharged or such acceleration having been cured, waived, rescinded or annulled, in the case of (i) or (ii) above, for a period of 30 days after written notice thereof to the Company by the Trustee or to the Company and the Trustee by the holders of not less than 15%

9

32

in principal amount of Debt Securities of such series; provided, however, that if any such failure, default or acceleration referred to in (i) or (ii) above shall cease or be cured, waived, rescinded or annulled, then the Event of Default by reason thereof shall be deemed likewise to have been thereupon cured; and (g) any other Event of Default provided with respect to Debt Securities of that series. (Section 501)

Subject to the provisions of the Indenture relating to the duties of the Trustee during default to act with the required standard of care, the Trustee is under no obligation to exercise any of its rights or powers under the Indenture at the request or direction of any of the Holders, unless such Holders shall have offered to the Trustee reasonable indemnity. (Sections 601 and 603) Subject to such provisions for the indemnification of the Trustee, the Holders of a majority in principal amount of the Outstanding Debt Securities of any series have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred on the Trustee, with respect to the Debt Securities of that series. (Section 512)

The Indenture provides that the Company will deliver to the Trustee, within 120 days after the end of each fiscal year, a brief certificate from the principal executive, financial or accounting officer of the Company as to his or her knowledge of the Company's compliance (without regard to any period of grace or requirement of notice) with all conditions and covenants of the Indenture. (Section 1004)

If an Event of Default with respect to Debt Securities of any series at the time Outstanding occurs and is continuing, either the Trustee or the Holders of at least 25% in principal amount of the Outstanding Debt Securities of that series by notice as provided in the Indenture may declare the principal amount (or, if the Debt Securities of that series are Original Issue Discount Securities, such portion of the principal amount as may be specified in the terms of that series) of all the Debt Securities of that series to be due and payable immediately. At any time after a declaration of acceleration with respect to Debt Securities of any series has been made, but before a judgment or decree for payment of money has been obtained by the Trustee, the Holders of a

majority in principal amount of the Outstanding Debt Securities of that series may, under certain circumstances, rescind and annul such acceleration. (Section 502)

No Holder of any Debt Security of any series has any right to institute any proceeding with respect to the Indenture or for any remedy thereunder, unless such Holder shall have previously given to the Trustee written notice of a continuing Event of Default and unless the Holders of at least 25% in principal amount of the Outstanding Debt Securities of that series shall have made written request, and offered reasonable indemnity, to the Trustee to institute such proceeding as trustee, and the Trustee shall not have received from the Holders of a majority in principal amount of the Outstanding Debt Securities of that series a direction inconsistent with such request and shall have failed to institute such proceeding within 60 days. (Section 507) However, such limitations generally do not apply to a suit instituted by a Holder of a Debt Security for the enforcement of payment of the principal or interest on such Debt Security on or after the respective due dates expressed in such Debt Security. (Section 508)

MEETINGS, MODIFICATION AND WAIVER

Modifications and amendments of the Indenture may be made by the Company and the Trustee with the consent of the Holders of not less than a majority in principal amount of the Outstanding Debt Securities of each series affected by such modification or amendment; provided, however that no such modification or amendment may, without the consent of the Holder of each Outstanding Debt Security affected thereby, (a) change the Stated Maturity of the principal of, or any installment of principal of or interest on, any Debt Security, (b) reduce the principal amount of, rate of interest on or any premium payable upon the redemption of any Debt Security, (c) reduce the amount of principal of an Original Issue Discount Security payable upon acceleration of the Maturity thereof, (d) change the Place of Payment where, or the coin or currency in which, any Debt Security or any premium or interest thereon is payable, (e) impair the right to institute suit for the enforcement of any payment on or with respect to any Debt Security after the Stated Maturity, Redemption Date or Repayment Date, (f) reduce the percentage in principal amount of Outstanding Debt Securities of any series, the consent of whose Holders is required for modification or amendment of the Indenture or for waiver of compliance with certain provisions of the Indenture or for waiver of certain defaults,

10

33

or (g) modify any of the provisions set forth in this paragraph except to increase any such percentage or to provide that certain other provisions of the Indenture may not be modified or waived without the consent of the Holder of each Outstanding Debt Security affected thereby. (Section 902)

The Holders of at least a majority in principal amount of the Outstanding Debt Securities of each series may, on behalf of the Holders of all the Debt Securities of that series, waive, insofar as that series is concerned, compliance by the Company with certain restrictive provisions of the Indenture. (Section 1011) The Holders of not less than a majority in principal amount of the Outstanding Debt Securities of each series may, on behalf of all Holders of Debt Securities of that series and any coupons appertaining thereto, waive any past default under the Indenture with respect to Debt Securities of that series, except a default (a) in the payment of principal of or any premium or interest on any Debt Security of such series or (b) in respect of a covenant or provision of the Indenture which cannot be modified or amended without the consent of the Holder of each Outstanding Debt Security of such series affected. (Section 513)

The Indenture provides that in determining whether the Holders of the requisite principal amount of the Outstanding Debt Securities have given any request, demand, authorization, direction, notice, consent or waiver thereunder or whether a quorum is present at a meeting of Holders of Debt Securities (i) the principal amount of an Original Issue Discount Security that shall be deemed to be Outstanding shall be the amount of the principal thereof that would be due and payable as of the date of such determination upon acceleration of the Maturity thereof, (ii) the principal amount of a Debt Security denominated in other than U.S. dollars shall be the U.S. dollar equivalent, determined on the date of original issuance of such Debt Security, of the principal amount of such Debt Security (or, in the case of an Original Issue Discount Security, the U.S. dollar equivalent on the date of original issuance of such Debt Security of the amount determined as provided in (i) above of such Debt Security) and (iii) Debt

Securities owned by the Company or any Affiliate of the Company shall be disregarded and deemed not to be Outstanding. (Section 101)

CONSOLIDATION, MERGER AND SALE OF ASSETS

The Company, without the consent of the Holders of any of the Outstanding Debt Securities under the Indenture, may consolidate with or merge into, or transfer or lease its assets substantially as an entirety to, any Person which is a corporation, partnership or trust organized and validly existing under the laws of any domestic jurisdiction, provided that any successor Person expressly assumes the Company's obligations on the Debt Securities and under the Indenture and that, after giving effect to the transaction, no Event of Default, and no event which, after notice or lapse of time, would become an Event of Default, shall have occurred and be continuing, and that certain other conditions are met. (Section 801)

NOTICES

Except as otherwise provided in the Indenture, notices to Holders of Debt Securities will be given by mail to the addresses of such Holders as they appear in the Debt Security Register. (Section 106)

TITLE

Prior to due presentment of a Debt Security for registration of transfer, the Company, the Trustee and any agent of the Company or the Trustee may treat the Person in whose name such Debt Security is registered as the owner of such Debt Security for the purpose of receiving payment of principal of and any premium and any interest (other than Defaulted Interest or as otherwise provided in the applicable Prospectus Supplement) on such Debt Security and for all other purposes whatsoever, whether or not such Debt Security be overdue, and neither the Company, the Trustee nor any agent of the Company or the Trustee shall be affected by notice to the contrary. (Section 308)

REPLACEMENT OF DEBT SECURITIES

Any mutilated Debt Security will be replaced by the Company at the expense of the Holder upon surrender of such Debt Security to the Trustee. Debt Securities that become destroyed, stolen or lost will be replaced by the Company at the expense of the Holder upon delivery to the Trustee of the Debt Security or

11

34

evidence of the destruction, loss or theft thereof satisfactory to the Company and the Trustee. In the case of a destroyed, lost or stolen Debt Security, an indemnity satisfactory to the Trustee and the Company may be required at the expense of the Holder of such Debt Security before a replacement Debt Security will be issued. (Section 306)

GOVERNING LAW

The Indenture and the Debt Securities will be governed by, and construed in accordance with, the laws of the State of New York. (Section 112)

REGARDING THE TRUSTEE

The Indenture contains certain limitations on the right of the Trustee, should it become a creditor of the Company, to obtain payment of claims in certain cases or to realize for its own account on certain property received in respect of any such claim as security or otherwise. (Section 613) The Trustee is permitted to engage in certain other transactions; however, if it acquires any conflicting interest and there is a default under the Debt Securities of any series for which the Trustee serves as trustee, the Trustee must eliminate such conflict or resign. (Section 608)

The Trustee currently provides certain banking and financial services to the Company in the ordinary course of business and may provide other such services in the future.

DESCRIPTION OF CAPITAL STOCK

GENERAL

The authorized capital stock of the Company consists of 1,000,000 shares of Preferred Stock, none of which has been issued, and 200,000,000 shares of Common Stock, approximately 84,744,000 of which were issued and outstanding as of April 30, 1995.

PREFERRED STOCK

Under the Company's Certificate of Incorporation, the Board of Directors is authorized to issue shares of Preferred Stock from time to time in one or more series and to determine the designation and number of shares of each series and the relative rights, preferences and limitations with respect to dividends, redemptions (including sinking fund provisions), liquidation, dissolution or winding up, voting rights and conversion, all in accordance with the laws of the State of Delaware. When shares of Preferred Stock are issued, certain rights of the holders thereof may materially affect the rights of the holders of the Common Stock, including voting rights and preferences in respect of dividends and liquidation.

COMMON STOCK

All issued and outstanding shares of Common Stock of the Company, including the shares offered hereby, are fully paid and nonassessable. Holders of Common Stock have no preemptive, subscription or conversion rights and are not liable for further calls or assessments. There are no redemption or sinking fund provisions in effect with respect to the Common Stock. Subject to the rights of any then outstanding Preferred Stock, holders of Common Stock are entitled to receive such dividends as may be declared by the Board of Directors out of funds legally available therefor and to share ratably in the assets available for distribution upon liquidation. Except as described below, each share of Common Stock is entitled to one vote at all meetings of stockholders. The holders of Common Stock are not entitled to cumulative voting rights in the election of directors.

The Company has paid no cash dividends on its Common Stock since its incorporation and anticipates that for the foreseeable future it will continue to retain any earnings for use in its business. The Common Stock of the Company is traded on The Nasdaq National Market under the symbol AMAT. The transfer agent and registrar for the Common Stock is Harris Trust Company of California.

12

35

The Certificate of Incorporation and the By-Laws of the Company contain provisions that could have certain anti-takeover effects. The Board of Directors has no current plans to formulate or effect additional measures that could have anti-takeover effects.

Fair Price Provisions. The Certificate of Incorporation contains a fair price provision pursuant to which, unless certain minimum price criteria and procedural requirements are satisfied, Business Combinations (as defined in the Certificate of Incorporation) with any person who is the beneficial owner of 15% or more of the Voting Stock (as defined) or with certain other persons must be approved by either the holders of two-thirds of the Company's outstanding voting stock or a majority of the Continuing Directors (as defined) of the Company. These provisions may have the effect of discouraging or deterring a third party from making an offer to the Company's stockholders to acquire a substantial amount or all of the Company's Common Stock.

No Stockholder Action by Written Consent; Special Meetings. The Certificate of Incorporation prohibits stockholder action by written consent in lieu of a meeting. The provision of the Certificate of Incorporation prohibiting stockholder action by written consent may have the effect of delaying consideration of a stockholder proposal until the next annual meeting unless a special meeting is called by the Board of Directors, the Chairman of the Board of Directors, or the President of the Company. This provision would also prevent the holders of a majority of the outstanding shares of Common Stock from using the written consent procedure to take stockholder action and from taking action by consent without giving all the stockholders of the Company entitled to vote on a proposed action the opportunity to participate in determining such proposed action.

Advance Notice Requirements for Stockholders' Proposals and Director Nominations. The By-Laws establish an advance notice procedure with regard to the nomination, other than by or at the direction of the Board of Directors or a

committee thereof, of candidates for election as directors (the "Nomination Procedure") and with regard to certain matters to be brought before a meeting of stockholders of the Company (the "Business Procedure").

The Nomination Procedure provides that the notice of proposed stockholder nominations for the election of directors must be timely given in writing to the Secretary of the Company prior to the meeting at which directors are to be elected. The Business Procedure provides that only such business may be conducted at a stockholders' meeting as has been brought before the meeting by, or at the direction of, the Board of Directors or by a stockholder who has given timely prior written notice to the Secretary of the Company of such stockholder's intention to bring such business before the meeting. In the case of both the Nomination Procedure and the Business Procedure, to be timely, notice must be received not less than 60 days prior to the date of the stockholders' meeting or 10 days after the date on which notice of the meeting is first given.

Although the By-Laws do not give the Board of Directors any power to approve or disapprove stockholder nominations for the election of directors or any other business desired by stockholders to be conducted at a stockholders' meeting, the By-Laws may have the effect of precluding a nomination for the election of directors or precluding the conducting of business at a particular meeting if the proper procedures are not followed, and may discourage or deter a third party from conducting a solicitation of proxies to elect its own slate of directors or otherwise attempting to obtain control of the Company, even if the conduct of such solicitation or such attempt might otherwise be desired by the Company's stockholders.

Amendment of Certain Provisions of the Certificate of Incorporation. The Certificate of Incorporation requires the affirmative vote of the holders of at least two-thirds of the total voting power of all the outstanding shares of stock entitled to vote generally in the election of directors for any amendment of the fair price provision of the Certificate of Incorporation described above. This provision will make it more difficult for stockholders to make changes in the Certificate of Incorporation. In addition, the requirement for approval by at least a two-thirds stockholder vote will enable the holders of a minority of the voting stock of the Company to prevent the holders of a majority or more of the stock from amending such provisions of the Certificate of Incorporation.

Preferred Stock. The Certificate of Incorporation authorizes the Board of Directors to fix, with respect to any series of Preferred Stock, the powers, preferences and rights of the shares of such series. Although the

13

36

Company has no intention at the present time of doing so, it could issue Preferred Stock that could, depending on its terms, either impede or facilitate the completion of a merger, tender offer or other takeover attempt. Although the Board of Directors is required to make any determination to issue such stock based on its judgment as to the best interest of the stockholders of the Company, the Board of Directors could act in a manner that would discourage an acquisition attempt or other transaction that some, or a majority, of the stockholders might believe to be in their best interests or in which stockholders might receive a premium for their stock over the then market price of such stock.

RIGHTS PLAN

In June 1989, the Board of Directors of Applied Materials declared a dividend distribution of one right (a "Right" or, collectively, the "Rights") for each outstanding share of Common Stock of the Company to stockholders of record at the close of business on June 26, 1989 (the "Record Date"). Each Right entitles the registered holder to purchase from the Company a unit consisting of one-fourth of a share (a "Unit") of Common Stock, at a price of \$11.25 per Unit (the "Exercise Price"), subject to adjustment (giving effect to two subsequent two-for-one stock splits). The description and terms of the Rights are set forth in a Rights Agreement dated as of June 14, 1989 (the "Rights Agreement").

Initially, the Rights are evidenced by the Common Stock certificates representing shares outstanding and no separate Rights certificates will be distributed. The Rights will be exercisable, and transferable apart from the shares of Common Stock, on the earlier to occur of (i) 10 business days following a public announcement that a person or group of affiliated or

associated persons (an "Acquiring Person") has acquired, or obtained the right to acquire, beneficial ownership of 20% or more of the outstanding shares of Common Stock (the "Stock Acquisition Date"), or (ii) 10 business days following the commencement of (or a public announcement of an intention to commence) a tender offer or exchange offer if, upon consummation thereof, the person who commenced the offer would be an Acquiring Person (the earlier of such dates being called the "Distribution Date"). The foregoing time periods are subject to extension as set forth in the Rights Agreement. After the occurrence of the event set forth in clause (ii) above, the Rights would become exercisable for a Unit of Common Stock at the Exercise Price. After the occurrence of the event set forth in clause (i) above, the Rights would become exercisable as set forth below.

In the event that a person becomes the beneficial owner of 20% or more of the then outstanding shares of Common Stock (other than as a result of a tender or exchange offer for all shares of the Common Stock at a price and on terms determined by a majority of the directors who are not representatives, nominees, affiliates or associates of an Acquiring Person, after receiving advice from one or more nationally recognized investment banking firms selected by such directors, to be fair and adequate to the stockholders, and otherwise in the best interests of the Company and its stockholders (a "Permitted Offer")), the Rights Agreement provides that proper provision shall be made so that each holder of a Right will thereafter have the right to receive, for a 90-day period (the "Exercise Period"), upon exercise, Common Stock (or, under certain circumstances, cash, a reduction in the Exercise Price, other securities of the Company or any combination thereof) having a market value equal to two times the exercise price paid (i.e., at a 50% discount). Following the occurrence of this event, any Rights that are, or (under certain circumstances specified in the Rights Agreement) were, beneficially owned by any Acquiring Person shall immediately become null and void. However, Rights generally are not exercisable following the occurrence of such an event until such time as the Rights are no longer redeemable by the Company as set forth below. Further, Rights generally are exercisable only after the effectiveness of a registration statement for the Common Stock issuable upon exercise of the Rights under the Securities Act of 1933.

In the event that, at any time following the Distribution Date, (i) the Company engages in a merger or other business combination transaction in which the Company is not the surviving corporation (other than following a Permitted Offer), (ii) the Company engages in a merger or other business combination transaction with another person in which the Company is the surviving corporation, but in which its Common Stock is changed or exchanged (other than following a Permitted Offer), or (iii) 50% or more of the Company's assets or earning power (on a consolidated basis) is sold or transferred, the Rights Agreement provides that proper provision shall be made so that each holder of a Right (except Rights which previously have been voided as

14

37

set forth above) shall thereafter have the right to receive, upon the exercise thereof at the then current exercise price of the Right, common stock of the acquiring company having a market value equal to two times the exercise price paid (i.e., at a 50% discount). The events described in clauses (i), (ii) and (iii) of this paragraph are defined as "Triggering Events."

The Exercise Price payable, and the number of shares of Common Stock or other securities or property issuable, upon exercise of the Rights are subject to adjustment from time to time to prevent dilution (i) in the event of a stock dividend on, or a subdivision, combination or reclassification of, the Common Stock, (ii) upon the grant to holders of the Common Stock of certain rights or warrants to subscribe for preferred stock that is substantially the same as Common Stock or convertible securities at less than the current market price of the Common Stock, or (iii) upon the distribution to holders of the Common Stock of evidences of indebtedness, cash (excluding regular quarterly cash dividends), assets (other than dividends payable in Common Stock) or of subscription rights or warrants (other than those referred to above).

At any time after the date of the Rights Agreement until 10 business days (or such later date as the Board of Directors of the Company may determine) following the Stock Acquisition Date, the Company may redeem the Rights in whole, but not in part, at a price of \$.0025 per Right, as adjusted for stock splits, stock dividends or similar transactions (the "Redemption Price"), payable in cash, Common Stock or other consideration deemed appropriate by the

Board of Directors. Thereafter, the Company's right of redemption may be reinstated if the Exercise Period has expired, no Triggering Event has occurred and an Acquiring Person reduces his beneficial ownership to 5% or less of the outstanding shares of Common Stock in a transaction or series of transactions not involving the Company and there are no other Acquiring Persons. Immediately upon the action of the Board of Directors of the Company ordering redemption of the Rights, the Rights will terminate and the only right of the holders of Rights will be to receive the Redemption Price.

Until a Right is exercised, the holder thereof, as such, will have no rights as a stockholder of the Company, including, without limitation, the right to vote or to receive dividends. While the distribution of the Rights will not be taxable to the stockholders or the Company, the stockholders may, depending upon the circumstances, recognize taxable income in the event that the Rights become exercisable for Common Stock (or other consideration) of the Company or for common stock of the acquiring company as set forth above.

The foregoing description of the Company's Common Stock and the Rights do not purport to be a complete description of the terms of the Company's Common Stock and the Rights and is qualified in its entirety by reference to the terms of such Common Stock and Rights, which are incorporated herein by reference and are set forth in full in the Company's Certificate of Incorporation and the Rights Agreement, respectively.

SECTION 203 OF THE DELAWARE GENERAL CORPORATION LAW

The Company is subject to the provisions of Section 203 of the Delaware General Corporation Law. This statute generally prohibits, under certain circumstances, a Delaware corporation whose stock is publicly traded, from engaging in a "business combination" with an "interested stockholder" for a period of three years after the date of the transaction in which the person became an interested stockholder, unless (i) the corporation has elected in its certificate of incorporation or bylaws not to be governed by this Delaware law (the Company has not made such an election), (ii) prior to the time the stockholder became an interested stockholder, the board of directors approved either the business combination or the transaction which resulted in the person becoming an interested stockholder, (iii) the stockholder owned at least 85% of the outstanding voting stock of the corporation (excluding shares held by directors who were also officers or held in certain employee stock plans) upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder or (iv) the business combination was approved by the board of directors and by two-thirds of the outstanding voting stock of the corporation (excluding shares held by the interested stockholder). An "interested stockholder" is a person who, together with affiliates and associates, owns (or any time within the prior three years did own) 15% or more of the corporation's outstanding voting stock. The term "business combination" is defined generally to include mergers, consolidations, stock sales, asset based transactions, and other transactions resulting in a financial benefit to the interested stockholder.

PLAN OF DISTRIBUTION

The Company may sell the Securities separately or together, (i) to one or more underwriters or dealers for public offering and sale by them and (ii) to investors directly or through agents. The distribution of the Securities may be effected from time to time in one or more transactions at a fixed price or prices (which may be changed from time to time), at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices. Each Prospectus Supplement will describe the method of distribution of the Securities offered thereby.

In connection with the sale of the Securities, underwriters, dealers or agents may receive compensation from the Company or from purchasers of the Securities for whom they may act as agents, in the form of discounts, concessions or commissions. The underwriters, dealers or agents which participate in the distribution of the Securities may be deemed to be underwriters under the Securities Act of 1933 and any discounts or commissions received by them and any profit on the resale of the Securities received by them may be deemed to be underwriting discounts and commissions thereunder. Any such underwriter, dealer or agent will be identified and any such compensation received from the Company will be described in the Prospectus Supplement. Any

initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time.

Under agreements that may be entered into with the Company, underwriters, dealers and agents may be entitled to indemnification by the Company against certain civil liabilities, including liabilities under the Securities Act of 1933, or to contribution with respect to payments which the underwriters, dealers or agents may be required to make in respect thereof.

The Company may grant underwriters who participate in the distribution of Securities an option to purchase additional Securities to cover over-allotments, if any.

All Debt Securities will be new issues of securities with no established trading market. Any underwriters to whom Debt Securities are sold by the Company for public offering and sale may make a market in such securities, but such underwriters will not be obligated to do so and may discontinue any market making at any time without notice. No assurance can be given as to the liquidity of the trading market for any such securities.

Certain of the underwriters or agents and their associates may be customers of, engage in transactions with or perform services for the Company in the ordinary course of business.

LEGAL OPINIONS

The validity of the Securities is being passed upon for the Company by Orrick, Herrington & Sutcliffe, San Francisco, California.

EXPERTS

The audited consolidated financial statements incorporated in this Prospectus, and the financial statement schedules incorporated in the Registration Statement, by reference to the Annual Report on Form 10-K of Applied Materials, Inc. for the year ended October 30, 1994 have been so incorporated in reliance on the reports of Price Waterhouse LLP, independent accountants, given on the authority of said firm as experts in auditing and accounting.
