- *Second consecutive quarter with more than \$2 billion in new orders*
- *Net sales of \$1.97 billion up 25 percent sequentially*
- *Non-GAAP adjusted EPS of 16 cents exceeded high end of outlook; GAAP loss of 11 cents per share reflected impairment charges in Energy and Environmental Solutions*

SANTA CLARA, Calif., May 16, 2013 — Applied Materials, Inc. (NASDAQ:AMAT), the global leader in manufacturing solutions for the semiconductor, display and solar industries, today reported results for its second quarter of fiscal 2013 ended April 28, 2013.

Applied generated orders of \$2.27 billion, up 7 percent from the prior quarter, with Silicon Systems Group orders up 14 percent from the first quarter and Display orders up 41 percent sequentially. Net sales were \$1.97 billion, up 25 percent sequentially.

Applied reported non-GAAP adjusted operating income of \$285 million and non-GAAP adjusted net income of \$199 million or 16 cents per diluted share. The company recorded a GAAP operating loss of \$68 million and a GAAP net loss of \$129 million or 11 cents per diluted share. The GAAP net loss included \$278 million in goodwill and intangible asset impairment charges associated with the Energy and Environmental Solutions (EES) segment, which were primarily the result of the further deterioration in solar equipment market conditions, along with \$10 million in charges related to previously announced restructuring plans. The company continues to aggressively reduce spending in the EES segment.

“For the second quarter in a row, Applied had strong order performance of over \$2 billion,” said Mike Splinter, chairman and chief executive officer. “We are seeing increasing pull from some of our largest strategic customers for our key enabling technologies. We remain committed to driving profitable growth.”

A reconciliation of the GAAP and non-GAAP adjusted results is provided in the financial tables included in this release. See also “Use of Non-GAAP Adjusted Financial Measures” below.

Second Quarter Reportable Segment Results and Comparisons to the Prior Quarter

Silicon Systems Group (SSG) orders were \$1.55 billion, up 14 percent, with growth primarily driven by memory. Net sales were \$1.29 billion, up 33 percent, led by foundry. Non-GAAP adjusted operating income increased to \$329 million or 25.5 percent of net sales. GAAP operating income increased to \$283 million or 21.9 percent of net sales. New order composition was: foundry 66 percent; logic/other 13 percent; flash 11 percent; and DRAM 10 percent.

Applied Global Services (AGS) orders were \$481 million, down 12 percent primarily due to the timing of service contract renewals which are typically concentrated in the first fiscal quarter. Net sales were \$517 million, up 10 percent. Non-GAAP adjusted operating income increased to \$120 million and rose by 3.9 points to 23.2 percent of net sales. GAAP operating income increased to \$118 million or 22.8 percent of net sales.

Display orders were \$195 million, up 41 percent driven by the initial recovery in TV equipment investment. Net sales were \$127 million, up 46 percent. Non-GAAP adjusted operating income increased to \$21 million or 16.5 percent of net sales. GAAP operating income increased to \$19 million or 15.0 percent of net sales.

Energy and Environmental Solutions (EES) orders were \$39 million, down 43 percent. Net sales were \$38 million, down 17 percent. EES had a non-GAAP adjusted operating loss of \$34 million; EES recorded a GAAP operating loss of \$322 million, which included impairment charges of \$278 million.

The non-GAAP adjusted EPS outlook excludes known charges related to completed acquisitions of approximately \$0.04 per share but does not exclude other non-GAAP adjustments that may arise subsequent to this release.

Use of Non-GAAP Adjusted Financial Measures

Management uses non-GAAP adjusted results to evaluate the company's operating and financial performance in light of business objectives and for planning purposes. These measures are not in accordance with GAAP and may differ from non-GAAP methods of accounting and reporting used by other companies. Applied believes these measures enhance investors' ability to review the company's business from the same perspective as the company's management and facilitate comparisons of this period's results with prior periods. The presentation of this additional information should not be considered a substitute for results prepared in accordance with GAAP.
